21 Wheel Weight Tools For Balancers

The Center Isn't What it Used to Be

- Many alloy wheels do not have a simple tapered center any more.
- There are a number of different taper angles being used.
- Plus, after the structural part of the center, the wheel may have a narrow cosmetic front.
- **It is critical for accurate balancing that the cone supports the wheel on the structural taper.**
- Incorrect contact can allow the wheel to move while on the balancer, giving false readings or chasing weights.

Back Cone Spacer

Allows for the standard "D" cone to be used as a back one on an 850 through XR Series Balancers. Often needed for applications using the #4 pin plate. 2 versions, 1 for most Coats Models, 1 for new 775 / 875 / 1175 / 6275

Short Cone

Required to prevent contact with the cosmetic face found on Cadillac Seville, Olds Silhouette, Pontiac Grand Prix & Trans Sport and Chrysler LH Chassis models.

Ford ULA Cone

The Ultra Low Angle Cone is specified by Ford to be used on 2003 and newer F150, Expedition & Navigator wheels in conjunction with a pin plate or finger plate.

Tacoma

Light Truck Back & Tacoma Cones

These cones are designed to allow for back coning of some light truck wheels. Can be used on any balancer but are required for light truck back coning on 775/875/1175.

Specialty Cones & Spacer

	28mm	40mm	Range
Ultra Low Angle Cone, Ford	81144441	81141821	TBA

*Spacer for 775/875/1175 balancers		8560639401	Straight 5.25"

In Between Cones (Tweener)

Supplemental set for wheels with shallow wheel centers. Shallow cone angles provide more accurate mounting. Example vehicles requiring these cones include Ford Edge and Chevy Malibu.

Tweener Cones

	28mm	40mm	Range
Cone Set (4)	85000340	8113795	1.62" - 3.45"
Miniature	8500033601	8113796	1.62" - 2.33"

Backing Plate	8309068	Tapered

Light Truck Cone Kit

Used for front coning light truck wheels. Cone mounting is quick and easy. The steel backing plate spaces out medium offsets and ensures wheels are held solidly. Good for most light truck wheels including some duallies.

Improved Light Truck Cone Kit

	28mm	40mm	Range
Cone Kit	8113276C	8113277C	4.8" - 6.8"
Cone only	8113279	8113280	4.8" - 6.8"
Backing Plate only	8113060C	8113061C	8"

Balancer Chucks

- Balancing some light truck wheels on a cone can be challenging. The greater the offset, the greater the challenge. If the wheel is not sitting straight on the cone, balancers will give false readings.
- The 3 jaw chuck eliminates issues with cone seating providing the **MOST ACCURATE** balancing.

Balancer Chucks

	28mm	40mm	2"	Range
Standard Balancer Chuck w/Plate	8113326C	8113330C		3.13" - 7.13"

Deep Offset Adapters

- For fleet operators needing the accuracy of a chuck and the speed of a cone.
- For specific center sizes found on some Ford 19.5" & 16" or GM & Chrysler 16" wheels.
- Customers must check wheel center sizes closely.

Sometimes The Hole Isn't The Center

- Aftermarket and a few OE wheels are designed so one model can fit many brands of vehicle. To do this, they enlarge the middle hole and center off the bolts.
- These wheels are called lug-centric or bolt centric.
- **It is critical for accurate balancing that the wheel centers on the balancer the way it centers on the car.**

FIXED FINGER PLATES

- Each plate is set to one size and locked.
- Offers fast set up on the balancer.
- Ideal for very high volume shops with a full set or get just a few plates for fleet applications.

PIN PLATES

- The most popular option.
- Four plates cover more than 95% of vehicles on the road.
- Faster set up than stud plates or combi adapters.
- Fewer plates than fixed finger plates to provide maximum coverage.
- Changeable pins allow for upgrading when new wheel styles come out.

STUD PLATES

- Each plate is set to one size and locked.
- Plates are bolted to the wheel and the assembly is mounted on the balancer.
- Used when maximum accuracy is needed.

COMBI ADAPTER

- A wide range of sizes in one unit.
- Can be time consuming to set up.
- Used in very low volume specialty applications or wheels without center holes.
