

A/C COMPONENTS IN MANUFACTURER'S QUALITY

2015 / 2016

Quality according to EC Regulation 461/2010 (motor vehicle block exemption)

NEW IN 2015 ORIGINAL REPLACEMENT PARTS

COMPLETE RANGE: OVER 38,000 VEHICLE APPLICATIONS

Snug-fitting, inexpensive, profitable

Original replacement A/C parts from Dometic WAECO

Original replacement A/C parts from Dometic WAECO can be a lucrative source of income for quality-conscious dealers and motor garages, because they are just as good as the original parts they replace, but considerably less expensive. This makes them an excellent choice for **reasonably priced repairs to suit the vehicle's market value**. And it also leaves scope for attractive profit margins.

The WAECO AirCon Parts range covers over 38,000 common vehicle applications: compressors, condensers, evaporators, driers ... all engineered in Germany, tested and approved by independent institutes, with EC quality seal and TecDoc certification.

This brochure gives you many good reasons why WAECO AirCon Parts can be a rewarding business for you. It tells you about the added value contained in each blue WAECO package, and sets out the benefits of being able to choose from a product range developed in Germany. On pages 8/9 we give you an overview of more than 100 products we recently added to our range. **Just check the table to find out what's of interest to you.**

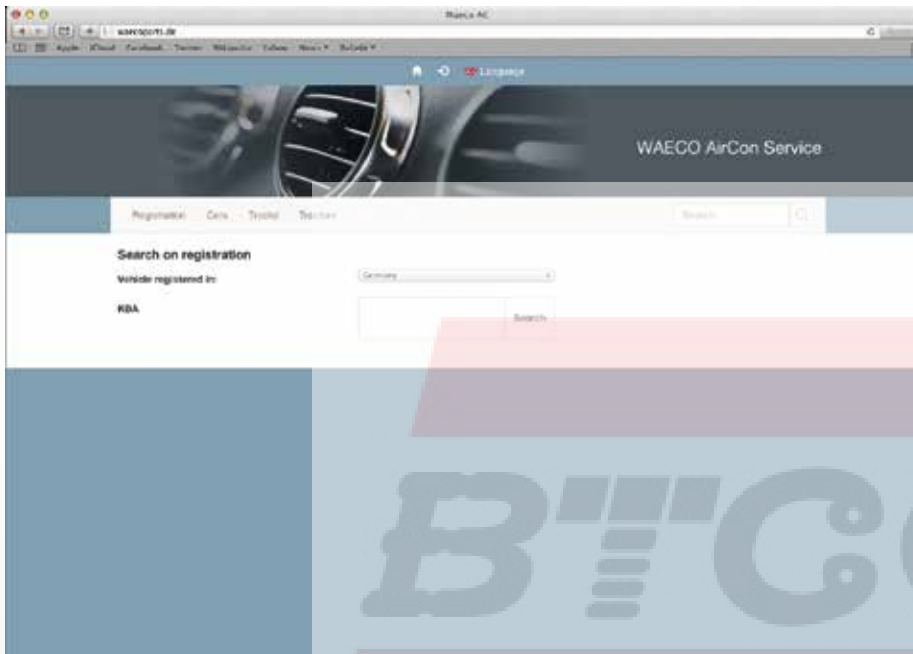

WAECO AirCon Parts – a truly great business:

- ✓ Original replacement parts for over 38,000 common vehicle applications, **only new parts (no recycled or refurbished parts)**
- ✓ **Quality according to EC Regulation 461/2010**, compliant with Art. 19 and 20 of the complementary guidelines covering the vertical restrictions in agreements on the sale and repair of motor vehicles and the distribution of motor vehicle spare parts (201/C 138/ 05) of 28.05.2010.
- ✓ Tested by independent institutes (e.g. TWK Karlsruhe)
- ✓ Portfolio management by specialised product development experts based in Germany
- ✓ Cooperation with established production partners
- ✓ Excellent availability: almost every part immediately available
- ✓ Simple product search with TecDoc certified data quality
- ✓ Generous warranty services (refunding of material and labour costs)

ONLINE CATALOGUE ON THE INTERNET – WWW.WAECOPARTS.COM

Don't search, find! The WAECO AirCon Parts online catalogue is as quick and easy to use as your TecDoc search engine. It provides detailed vehicle descriptions with all vehicle-specific parameters included on a **simple, fast and clearly structured platform.**

Cross reference lists

Good to know that virtually every standard A/C part can be replaced with one from the WAECO AirCon Parts range. Check which one fits best in a matter of seconds:

Under www.waecoparts.com you can find cross references to the A/C parts of original equipment manufacturers and other suppliers. Reference search is possible via the item number, the vehicle identification number, the original replacement part or cross reference. Alternatively, you can find the part under “vehicle selection” by entering the manufacturer, the model series and the type of vehicle.

Check it out for yourself!

Stay true, buy blue!

Packages with tangible added value

A blue package labelled **WAECO AirCon Parts** will always contain a high quality, snug-fitting, thoroughly tested spare part that was safely packed to arrive at your premises in ship-shape condition. – Moreover, each blue WAECO package gives you access to our know-how, an added value that pays off in everyday workshop life.

Here's a brief example: when you get a compressor from WAECO the packaging will always contain, in addition to the compressor, a special filter for the old compressor oil, plus the corresponding instructions. This provides you with a well proven tool to identify the nature of the compressor damage. After the diagnosis you can initiate the necessary steps – e.g. flushing the air conditioning system to remove abrasion particles from the compressor.

WAECO can do even more for you

Under the WAECO AirCon Service brand we provide you with the following products and services:

Air conditioning workshop equipment

A/C service units, consumables, measuring tools, accessories for leak detection ...

Technical advice & support

Customer hotline, newsletters, tailor-made training concepts

Promotion material for the Point of Sale

1

Safely packed – outside and inside

The blue outer package contains a cardboard package inside that was punched and folded to match the shape of the compressor it is holding. This prevents damage to the goods during transportation and time consuming return shipments.

2

Sturdy casing, convenient handling

When you open the packaging you should find the shrink wrapped compressor. An oil screen and some extra information are also provided free of charge.

3

Stay true, buy blue

The WAECO colour stands for excellent quality at favourable prices, for attractive margins and satisfied customers. Contained in a well thought-out package the original part arrives at your premises in prime condition, so your customers won't need to wait for their vehicles longer than necessary.

New products in 2015 –

Original replacement parts for cars and trucks

The updated WAECO news brochure has a lot to it, quite literally: more than 100 new entries were added in the car and truck segments to complete the WAECO AirCon Parts range. Three potential top sellers are shown in detail below, at the bottom of this page. They include, for example, a compressor for popular car models in the BMW portfolio and a drier for the Volkswagen sister models VW Sharan and Seat Alhambra.

All the other newcomers to the range can be found in the table on pages 8/9 of this brochure. For the complete range, please refer to our online catalogue at www.waecoparts.com.

Well documented – found in an instant

With product data of outstanding quality and exemplary parts documentation we meet the stringent requirements of TecDoc. As a result, we have been awarded the coveted certificate of the leading publisher of digital spare parts catalogues.

Compressor

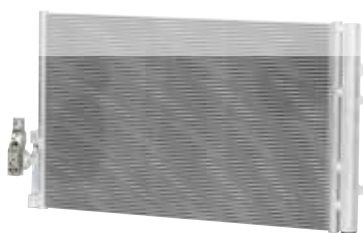

BMW 1 (E87) / BMW 3 (E90)

Manufacturer	Denso
Compressor ID	5SE12C
Oil charging amount	160
Compressor cubic capacity	120
Belt pulley -Ø	100
Number of fins	6
Voltage (V)	12
External controls	
WAECO Ref. No	8880100420
OEM Ref. No	64526987766

Condensor

BMW X3, 2010-

Height (mm)	378
Width (mm)	570
Depth (mm)	16
Supplied	with Drier
WAECO Ref. No	8880400530
OEM Ref. No	64539216143

Drier

Volkswagen Sharan / Seat Alhambra 2010-

Filter design	Drier insert
Supplied	with lid and gasket ring
WAECO Ref. No	8880700348
OEM Ref. No	7N0898191

WAECO AirCon Parts –

Engineering and portfolio management in Germany

The development and management of the WAECO AirCon Parts range is in the hands of experienced WAECO specialists who maintain excellent contacts with the automotive industry and all leading trade associations. Thanks to the accurate work of our engineers and the careful manufacturing by hand-picked, long-term production partners, you can rest assured that each part fits like a glove and is a treat to install in your workshop.

We are 100% convinced by the quality of our offer. All products in the WAECO AirCon Parts range are tested on a regular basis by recognised independent institutes – and they score excellent results in the tests!

Quality

Precision you can rely on

We maintain our own test lab, cooperate with specialised manufacturers and perform comprehensive tests to make sure that WAECO AirCon parts are just as easy to install as the original they replace.

Know-how

Many years of experience in the A/C business

WAECO has been known as the specialist in automotive air conditioning for over 30 years. You will benefit from our wealth of know-how with every original part you order from us.

Testing

Inspection by independent institutes

WAECO AirCon Parts are inspected by independent institutes (e.g. TWK Karlsruhe) – with excellent results. Their level of high quality is also documented by the certification according to EC Regulation 461/2010.
