'Job Seeking as a Coordinator, Supervisor, and Engineer in Mechanical Engineering related field'

CAREER SUMMARY

Engineering Graduate experienced in wellhead mechanical maintenance shutdowns and turnarounds, steel structure-fabrication & painting. Detail-oriented team player with organizational skills. Ability to handle multiple projects simultaneously with a high degree of accuracy. Organized and dependable candidate successful at managing multiple priorities with a positive attitude. Willingness to take on added responsibilities to meet team goals. Focused on learning from senior engineering professionals and making positive contributions to the productivity. Eager to build a long-term career in the field.

SKILLS AND STRENGTHS

- **Project Management implementing Six Sigma Foundations**
 - **Offshore Logistics and Supply Chain** : managed vessels individually for transporting material
 - **Documents Management and Control** : advanced MS excel, SAP, Maximo skills for fast processing
 - **Understanding of Drawings and P&ID** : with AutoCAD 3D, Solid works knowledge
 - **Deep understanding about Oil & Gas Materials and Standards - ASTM, ASME**
 - **Strong Production Engineering Foundation** : mechanic and fabrication workshop skills
 - **Turnarounds Planning and Support** : supported seniors with situational strategies
 - **Team Oriented** : Focus on team building and working together to get maximum output
 - **Multi-tasking**: Managed different positions of materials and logistics coordinator, PTW coordinator and HR & administrative tasks with team leader appreciation
-

PROFESSIONAL ACCOMPLISHMENTS

- Over 8 years of engineering and support experience with oil and gas industrial experience managed without safety incidents mostly appreciated by ADNOC safety for following LSR
 - Leadership for Major Mechanical Shutdown of West Satellite Platform, Adnoc Upper Zakum replacing over 50 valves comprising mostly of 18", 12", 8" and refurbish and installation of major oil production 12" manifolds and associated modifications, hookups
 - Team member for designing and developing a new self-holding tool to hold spanners while torqueing/tightening and loosening bolts to promote single man working on a flange safely as a part to implement reduction of manpower for cost cutting
 - Completed Turnarounds of over 30 wellheads in Upper Zakum with management and team support
 - Singlehandedly managed Barge materials store its documentation and replenishment as per the work schedule which helped me to get depth understanding of oil and gas materials
 - Permit to Work Holder with Adnoc as a Job Performer
 - Kept error free documentation and emails to make upcoming delays into successful activities
 - Managed to get excellent result in steel structure production with strategic planning and calculation during my tenure as production engineer with minimal losses
 - First class graduate in B. tech without backlog history
-

WORK HISTORY

DELTA INTERNATIONAL PETROLEUM SERVICES, ADNOC OFFSHORE CONTRACT, Abu Dhabi, *Mechanical Supervisor - (SAT, WHPT – Barge Leen) (05/2019) - (01/2023)*

- Performed supervision of steel structure fabrication workshop and piping support work for construction in Upper Zakum.
- Followed guidelines while assessment and troubleshooting to prevent work-related injuries.
- Maintained clean and organized work area to easily locate repairing tools and equipment.
- Coordinating with other departments to ensure that work is completed on time with best quality of services with site inspections before handover.
- Used strong analytical and problem-solving skills to develop effective solutions for challenging situations.
- Collaborated with procurement team to establish steady supply of inventory.
- Planned and supervised shipments from production to end-user and scheduled daily and weekly routes.
- Prepared and documented shipment activities and cargo movements to enable tracking history and maintain accurate records.

ALBADDAD, Dubai, *Production Engineer, (12/2018)-(04/2019)*

- Managing Erection of tents at Expo 2020 sites by coordinating with factory and site contractors such as Parsons and Laing O Rourke.
- Production supervision in steel and aluminum workshops.
- Production planning and control in factory.
- Increased workforce efficiency by working in shifts.

VIOLA COMMUNICATIONS, Abu Dhabi, *Production Coordinator, (03/2018)-(11/2018)*

- Coordinating for construction of event stands at various locations along Abudhabi like ADNEC as Organizer.
- Supervising works at site and managing efficient manpower planning without delays.
- Performed to make sure everything completes on time as per plan and make arrangements to dismantle stands after event close out.
- Production control as per plan at steel structural and carpentry workshop as per requirements.
- Performed to make sure everything completes on time as per plan and make arrangements to dismantle stands after event close out.
- Arrangement and management of documents and permits.

YOUNG HWA (RAK) STEEL, Ras Al Khaimah, *Production Engineer, (07/2016)-(02/2018)*

- Executing, controlling and coordinating projects of structural steel fabrication, welding, blasting and painting as per production plan.
- Led team of 100 members with 2 foremen.
- Established lean production management with focus on JIT.
- Documents management related to production in coordination with DC.
- Ensuring all operations is undertaken in safely manner in accordance with company HSE policy.

STEEL AND INDUSTRIAL FORGINGS, Kerala, *Gr. Mechanical Engineer, (06/2014)-(06/2016)*

- Executed production operations of forge shop.
- Led team of 40 members with support from Assistant Engineer-Production.
- Coordinate with quality assurance, die production, maintenance teams and NDT testing.
- Prepare forging, machining drawings and calculation of net, cut, gross weight of products through data sheets.

EDUCATION

MBA in Petroleum and Natural Gas Management, 2022-2024, Amity University Online, Noida (*Pursuing*)
B. Tech in Mechanical Engineering, 2010-2014, University of Calicut, Kerala
Completed schooling from Chinmaya Vidyalaya (CBSE), Kerala

ADDITIONAL INFORMATION

Have valid UAE driving license
Excellent English and Hindi language proficiency
Have extra certifications in six sigma, project management, professional communication, HVAC, AutoCAD 3D
Excellent computer software and hardware skills with fast learning capability to new skills
Attended various safety trainings and inductions of ADNOC to facilitate safe working offshore
Have valid TBOSIET and H2S training card
