- AutoCad
- Candela

PROFILE

"Industrial Supplies specialist, expert in mechanical and electrical tools. Providing cutting-edge solutions: cutting, hardware, and power tools, plus essential safety gear like gloves, helmets, goggles, and jackets. Proficient in circuit breakers, relays, motors, pumps, pneumatic, industrial valves, and general products. Committed to safety, efficiency, and quality. Proven in nurturing client relationships, streamlining supply chains, and driving industrial success through reliable tools."

WORK EXPERIENCE

Junaid Enterprises | Technical Sales Engineer | Owner

April 2019 – May 2023

Experienced Industrial Supplier specializing in diverse electrical and mechanical tools, including hardware, cutting tools, power tools, pneumatics (FRLs, air cylinders, solenoid valves), and electrical components (breakers, relays). Proven track record of seamless supply chain management, fostering strong client relationships, and enhancing operational efficiency for a wide range of industrial needs.

Nespak | Junior Electrical Engineer

March 2018 – Feb 2019

Contributed as Junior Engineer-Electrical in the Bhalwal Industrial Estate Infrastructure Development project. Responsibilities encompassed supervising power distribution elements, including transformers, distribution boards, MV/LV switchgear, and road lighting systems. Oversaw material inspections, coordinating with certified laboratories for quality checks via test reports, ensuring seamless construction and electrical infrastructure delivery.

Zeeruk International | Site Engineer (Electrical)

Nov 2016 – Jan 2018

Junior Site Engineer - Electrical proficiently supervised wiring, conduit installation, load calculations, and collaborated on civil tasks, ensuring seamless project progress and precision in execution.
