EXPERIENCE

Generator Technician

Savola group - Khartoum, Sudan
12/2021 - Present

Successfully with the team to complete a complex project ahead of schedule, responsible from two stations (Caterpillar and Perkins) generators in high modern technologies companies and deep sea controllers, I have chosen to participate in Caterpillar 810 Kva overhauling.

Mechanical Technician

Elshaheen Elafrigi modern slaughterhouse - omdurman, Sudan
04/2021 - 12/2021

Successfully led a team to promote the slaughterhouse in terms of mechanical aspect, generators, Automotive service and demonstrate basic service/maintenance operations (e.g., oil change, tire service, filter...) on motor vehicles, maintenance and operation of 3 diesel generators (Cummins, Perkins, Volvo) (250_500)Kva

Power Station Technician

Alamjad Factory For Steel
08/2020 - 03/2021

Developed the power station in terms of generators I initiated the work and most of generators leaking both water and oil, and I promoted the generators with my team to stop the leaks and decrease the cost of the oil and water as well, maintenance and operation of (9) generators in high load, Perkins and Caterpillar (250-2000)kva

Generators Technician

Inmaa company for producing poultry And Feed, omdurman, Sudan
11/2019 - 08/2020

I outshined among my colleagues due to my time respect, work under pressure and collaboration as well, we consistently meet the company goals, Volvo generators with deep sea controllers technology
