WORK EXPERIENCE

Cambrex

May 2023 – Oct. 2023

PMO Implementation for the Drug Product Branch

Montreal, Canada & Whippany, NJ, USA

- Cambrex develops and manufactures new drug products for the NA market (Cambrex.com/Drug-Product).
- In collaboration with the PMO & CX Director, I designed the core PMO structure, project lifecycle, and implemented strategy across both Canadian and American sites.
 - Conducted a comprehensive diagnosis of project management practices on technical projects.
 - Designed a full project management framework for pharmaceutical development projects, incorporating Risk Management principles and leveraging company data.
 - Successfully presented and secured approval for the new framework from C-suite executives for organization-wide implementation.
- Designed a full onboarding program with new project management practices, integrating core pharmaceutical industry knowledge and regulatory compliance needs.

Delta Dore

May 2021 – Aug. 2021

Automation Engineer Intern

Bonnemain, France

- Analyzed the manufacturing process and created automated solutions to improve production efficiency.
- Collaborated with plant operators and engineers to specify their unique needs and reduce their workload.
- Achieved high operator acceptance of the solutions by incorporating new functionalities from their feedback.

Ouest INSA Junior-Enterprise

Jan. 2018 – Dec. 2019

Vice President

Rennes, France

- Ouest INSA is a student-company that acts like an engineering consulting firm on various industrial projects.
- Led a cross-functional team of 25 individuals, resulting in a **YoY benefit growth of over 40%**.
- Secured key partnerships with industry leaders such as Alten, CapGemini, and EPNAK through negotiation.

EDUCATION

National Institute of Applied Sciences (INSA)
