Dear Mr recruiter

I am looking to begin my career as an electrical technician by becoming an trainee Electrical technician and would like to apply at your company for a chance at obtaining this position. I know that it takes a certain type of person and a lot of hard work along with dedication to gather the skills necessary to become a full fledged electrical technician .

Here is a list of my skills and knowledge that would help me contribute significantly:

- Executing plans of electrical wiring to ensure well-functioning lighting and electrical systems.
- Installing and maintaining electrical fixtures, and equipment for all types of systems.
- Installing circuit breakers and repairing electrical wiring systems
- Connecting wires in electrical circuits and networks, to ensure compatibility of components.
- Performing both preventative and regular maintenance on electrical systems.
- Installing safety and distribution components.
- I have experience in dealing with angry customers because my last job in IKEA.
- I am a quick learner and pick up new skills quickly and without having to be shown twice which means I can get through a helper program very quickly.

Moreover, I am familiar with electrical codes, schematics, and safety procedures. I enjoy working in a team-oriented environment and take and follow instructions precisely

I know that it can take time to move up from a trainee to becoming a full electrical technician but I am willing to put in the time and effort that is required. For this reason, I know that I would be a valued member of your team .

I would like to meet to discuss what I can offer your company. I can be reached at (974)-5065-0069 or emailed at [walido_18@live.fr]

Sincerely

Walid Benamor
