Experience

Team Leadership

Led and managed multifaceted academic group projects, skillfully showcasing robust organizational and leadership acumen. Demonstrated a keen ability to navigate diverse team dynamics, fostering collaboration and ensuring the achievement of project goals. Employed effective communication strategies, resulting in enhanced teamwork and the efficient completion of tasks within stipulated timelines.

Discipline and Time Management:

Balanced academic commitments with a part-time job, illustrating exceptional discipline and effective time management. Successfully met deadlines and exceeded expectations in both academic and work responsibilities.

Adaptability:

Actively participated in Pakistan International School Doha, developing adaptability in diverse settings. Engaged with different perspectives and contributed to the success of the group, highlighting a willingness to thrive in various environments.

Electrician'

I possess three years of hands-on experience as an Electrician at Al-Noor Janat Shah in Kohat, Pakistan, from February 2020 to February 2023. During this period, I demonstrated proficiency in troubleshooting, maintenance, and ensuring the optimal functionality of electrical systems. My commitment to excellence and teamwork makes me well-equipped to contribute effectively to new challenges and opportunities in the field.

Polio/ TCV Campaign

I possess three years of dedicated experience in the 'Polio/TCV Campaign' as a voluntary member of the fixed team within the Health Department in Kohat, Pakistan, from July 5, 2020, to July 23, 2023. My role involved strategic planning and community engagement to contribute to the critical mission of eradicating polio. I am eager to leverage this valuable experience in new healthcare initiatives.

PROJECT HANDLED

Handled diverse projects, including concealed conduit wiring, casing capping wiring, and ceiling wiring, demonstrating technical versatility. Proficient in UPS system installation, showcasing expertise in a range of electrical installations.
