PROFESSIONAL EXPERIENCE

Volta Aluminium Company-Tema, Ghana 1991 -2006

Forklift/Overhead Crane Operation, Material Supply(Light and Medium trucks)

Operated electrical Overhead crane to facilitate molten metal and bath tapping, filling of pot cell hoppers and moving tools and equipment around the work area.

Navigated anode change cranes(ECL) to change scheduled spent anodes, premature and burnt off anodes.

Operated 60-tonner electrical overhead crane for tapping of molten metals from pots.

Operated Forklift truck and Front-end loader as required for my day to day job assignments.

Material Supply with Light and Medium Vehicles/Trucks.
Stuck firmly to the health, safe and environment (HSE)
legislation and policies to maintain higher safety standards.
Involved in safety processes, including 5-S and
5-life threatening and other safety and health programs to
articulate and achieve departmental goals.

HARVEY CONTRACTING COMPANY (HCC)- Accra, Ghana.
Company Driver 2006-2008

Main role: Operated commercial light/medium Vehicles as well as mini-bus/van
to commute passengers and company staff from one location to the
other across the country.

QATAR ALUMINIUM LIMITED, QATAR.
Operator, August, 2009-June, 2023

Operated Pot Tending Machines (PTM) to change scheduled spent anodes
and other deviations as and when they occur. Ensure the prevention of
oxidation and maintaining the heat balance in the pots by covering and
recovering anodes with alumina covering material.

Maximise current efficiency and safety of operations by adhering to the
safe operating procedures to ensure the safety of personnel and equipment
in the working environment.

Performing first-line maintenance on equipment in order to minimise costly
downtimes and Supported numerous projects, maintenance and improvement
activities, escalate findings as applicable and as needed.

Constantly conducting quality control analysis.

Conducted tests and inspections of products, services to evaluate
quality performances. Carried out routine and non-routine tasks as
required by the department operations to fulfil work schedules.

Appointed as a PTM Operation Expert and Trainer, I facilitated,
Led and trained existing, as well as newly hired employees, the required
procedures of day to day tasks of PTM operations.

Helped trainees to improve the availability of personnel and equipment.
