EDUCATION

2016-2018

ALGERIAN PETROLEUM INSTITUT

- on site Specialized training as Electromechanical confirmed Technician

2009-2012

MENTOURI UNIVERSITY

- Bachelor of Mechanical Engineering Automotive engineering

SKILLS

- Project Management
- Fast learner
- Teamwork
- Time Management
- Leadership
- Effective Communication
- Critical Thinking

LANGUAGES

- English (Fluent)
- French (Native)
- Arabic (Native)
- German (Basic)

AMAR TAKY EDDINE

ZAYOUT

ELECTROMECHANICAL PRINCIPAL TECHNICIAN LEVEL 02

PROFILE

Currently serving as an interim department head at SONATRACH, I am a 33-year-old electromechanical principal technician and former fleet manager with a diverse background in both management and technical roles. With a Bachelor's degree in Mechanical Engineering, I bring a solid foundation in engineering principles and leadership. I successfully manage and supervise departmental operations, leveraging my experience in overseeing maintenance, repair, and optimization of electromechanical systems especially internal combustion engines, as well as managing vehicle fleets in various industries. My strong physical condition ensures that I am capable of handling the demands of technical work effectively. I am open to new opportunities and eager to apply my expertise and passion for problem-solving to contribute to new challenges and projects.

WORK EXPERIENCE

SONATRACH Oil and Gas

2023 - PRESENT

interim head of Electromechanical department

- Responsible for providing leadership and direction to the Electromechanical department. This includes overseeing day-to-day operations, managing departmental resources, and ensuring that departmental goals and objectives are met.
- Ensure that electromechanical activities within the department comply with relevant standards, regulations, and best practices. This includes maintaining quality control processes, conducting audits or inspections
- Contribute to the development of departmental strategies and plans to align with organizational goals.
- "Collaborate with Team to Ensure Optimal Functioning of Various Electromechanical Equipment, including Engines, AC/DC Motors, Water Treatment Packages, Pumps, and More"

SONATRACH Oil and Gas

2018 - PRESENT

Electromechanical principal technician level 02

- Conduct routine maintenance and repairs on heavyweight equipment, including diesel generator engines, to ensure optimal performance.
- Proficient in engine complete overhauling for prolonged equipment durability.
- Diagnose and resolve mechanical issues with precision, employing advanced diagnostic tools and techniques.
- Assist in the installation and commissioning of heavyweight equipment, ensuring proper alignment and configuration.
- Adhere strictly to safety protocols while working with heavy equipment and diesel engines to prevent accidents and injuries.

SONELGAZ POWER AND GAS DISTRIBUTION

2014 - 2016

Fleet Manager

- Oversaw vehicle fleet procurement for the Algerian National Company of Electricity and Gas Distribution, managing acquisition, maintenance, and disposal.
- Led driver management and safety initiatives for the company's fleet, ensuring compliance and efficiency.
- Implemented strategies to optimize fuel efficiency and reduce costs across the fleet.
- Introduced innovative technologies and cost-saving measures to enhance fleet operations.
