

# Curriculum Vitae

Name : JAGAN PULIYOTH LOHIDHAKSHAN  
Nationality : Indian  
Date of Birth : 24 May 1975  
Marital Status : MARRIED  
Language known : Arabic, ENGLISH, HINDI, Malayalam, Tamil

**Mob: +97430284053**

## **Career Objective: -**

As a skilled technician, I am dedicated to preserving and repairing fire alarm systems and electrical and electronic equipment. I am committed to regularly checking for wear and tear to ensure that these systems remain in optimal condition. My goal is to maintain the efficiency of all fire alarm systems & electrical equipment within the organization, without causing any interruptions to the work procedure. With my expertise, I am confident in my ability to provide reliable and effective maintenance services

## **Key Skill**

- Proficient in industrial electrical systems and equipment
- Skilled in reading and interpreting electrical blueprints and schematics
- Extensive knowledge of motors, controls, and PLC systems
- Expertise in diagnosing and resolving electrical faults
- Strong understanding of safety regulations and protocols
- Effective communication skills for collaboration with teams and management
- Proficient in the installation, maintenance, and troubleshooting of fire alarm systems
- Extensive knowledge of NFPA and local fire safety codes and regulations
- Skilled in programming and configuring various fire alarm panels and devices
- Expertise in testing and inspecting fire alarm systems for compliance
- Strong understanding of low-voltage electrical systems
- Effective communication and collaboration with clients and team members

## **Work Experience: -**

Work Experience: - Worked in Siemens for Fire Alarm Technician – 2021 to 2023

Projects: - Moon Tower and Qetaifan

Installed, tested, and commissioned fire alarm systems for commercial and residential properties, ensuring accurate functionality and adherence to codes.

Conducted routine inspections and maintenance of fire alarm systems in accordance with NFPA standards, resulting in zero safety violations during audits.

Collaborated with engineers and designers to develop customized fire protection solutions for complex facilities, ensuring optimal coverage and response.

Responsible for handling all residential and small business fire alarm maintenance and repair

Often asked to take part in planning and installing new alarm systems

Developed excellent skills in being able to get active referrals from satisfied customers.

Part of a select team sent out to do residential and small business fire alarm repair projects.

## 1. **Industrial electrician**

Name of Company : Red Spot Electromechanical & contracting  
(4 year). In Qatar

- Conducted preventive maintenance on industrial machinery, including motors, conveyors, and control systems, resulting in a [percentage] decrease in unplanned downtime.
- Collaborated with engineering teams to install and commission new equipment, ensuring proper electrical connections and adherence to safety standards.
- Diagnosed complex electrical issues using multimeters, oscilloscopes, and thermal imaging, identifying faulty components and implementing effective solutions.
- Repaired and rewired electrical panels and distribution boards, enhancing system reliability and minimizing production interruptions.
- Assisted in the upgrade of a manufacturing line's control system, contributing to a [percentage] increase in overall productivity and efficiency.
- Trained junior electricians on safe work practices, electrical troubleshooting techniques, and adherence to industry regulations.
- Repaired and rewired electrical panels and distribution boards, enhancing system reliability and minimizing production interruptions.
- Assisted in the upgrade of a manufacturing line's control system, contributing to a [percentage] increase in overall productivity and efficiency.
- Trained junior electricians on safe work practices, electrical troubleshooting techniques, and adherence to industry regulations.

Worked in MHI (Qatar Electric) Electrician & AC Installation helper

## **Industrial electrician**

(The *Saudi transformers* Company Ltd. (STC) (11 year). In KSA)

- **Responded to and resolved service calls in a timely manner.**
- **Examined heating and air conditioning systems for signs of defects or malfunction.**
- **Analyzed, modified, and repaired digital control systems.**
- **Installed air conditioning equipment and tested for proper operation.**
- **Completed preventative maintenance on residential and small business systems**

## **Physical Strengths**

- Lifting and Placing Heavy Systems
- Manual Dexterity
- Reaching Overhead for Extended Periods
- Reading Technical Materials
- Repeated Bending and Squatting
- Using Power Tools for Drilling and Cutting
- Working from Ladders and Scaffolds
- Working in Adverse Conditions
- Working Odd Hours

*All the details provided above are genuine to the best of my belief and knowledge.*

Thanks, and Regards
