PROJECTS WORKED ON:

1. SWCC PROJECT :

I have sold almost 300 tons of E6010 & E7010 welding electrodes for root and hot pass in the water pipeline project and for the fill and cap I have sold them E71T1-C1A2 almost 200 tons.

2. RIYADH METRO:

The BACS consortium is the responsible for the design and build of Lines 1 and 2 of the Riyadh metro network. These two lines will form part of the six-line metro system that will run for a total length of 176 kilometers across the city and includes 85 stations. I have worked very hard and got the approval for our brand and then I have supplied E6013, E7018, E8018, ER70S-6 and E71T-1 for almost 28 stations.

3. RIYADH METRO:

I have also supplied very special type SS welding electrode and wire (7.5, 12.5, 15 kg spool and 250 Kg drum) for the iconic station canopy which is also known as a stainless-steel bowl.

4. METAL & STEEL FABRICATORS :

I have developed very huge customer base in central provision where I used to supply them different types of welding electrodes and welding wire as per their requirement. I was selling almost 2 to 3 million Saudi Riyal of welding consumables in a year.
