

## Hani Hajri

**Nationality:** Tunisian **Date of birth:** 09/03/1999 **Gender:** Male

 **Phone number:** (+216) 53344041  **Email address:** [hajrihani@hotmail.com](mailto:hajrihani@hotmail.com)

 **LinkedIn:** [linkedin.com/in/hani-hajri-00aaa3211](https://www.linkedin.com/in/hani-hajri-00aaa3211)

 **Home:** Tunisia

### About Me

My professional drive is rooted in the pursuit of excellence, exemplified through meticulous plan analysis, and flawless execution of electrical installations. I possess a remarkable aptitude for thriving under pressure, consistently upholding protocol, and adhering rigorously to the highest standards of electrical installation practices.

### WORK EXPERIENCE

#### Electrical Technician

**Tesla Electrical Solutions (Libya)** 02/2024

- Execute electrical installations, maintenance, and repairs to meet project specs and safety standards.
- Analyze plans and blueprints for optimal installation methods and equipment needs.
- Conduct routine inspections and testing of electrical systems to proactively identify and resolve issues.
- Troubleshoot electrical issues, implementing solutions for minimal downtime and optimal performance.
- Collaborate with project teams to achieve goals within set timelines and budgets.
- Maintain precise records of work, including schedules, equipment logs, and service reports.

#### Mechanical Technician

**Animal Nutrition Company** [09/2023 – 12/2023]

- Ensure mechanical systems perform optimally through monitoring and rectification.
- Modify hydraulic and pneumatic systems as needed, adhering to industry standards and safety protocols.
- Conduct proactive preventive maintenance and inspections on mechanical systems to address potential issues.
- Troubleshoot mechanical malfunctions to minimize downtime and enhance efficiency.
- Maintain detailed records of mechanical system operations, maintenance, and equipment modifications.
- Strictly adhere to safety procedures and guidelines when handling mechanical components and equipment.
- Stay updated on advancements in mechanical technology and industry best practices.

#### Industrial Technician

**Tourellec Company** [04/2022 – 05/2023]

- Install, maintain, and repair electrical systems and equipment in industrial settings.
- Interpret electrical blueprints and schematics to ensure accurate installation and troubleshooting.
- Utilize diagnostic tools and techniques to troubleshoot electrical malfunctions promptly and effectively.
- Perform preventive maintenance on electrical systems to prevent downtime and ensure reliability.
- Adhere to electrical codes, regulations, and safety standards to maintain a safe working environment.
- Collaborate with engineers and other team members to plan and execute electrical projects.
- Test electrical systems to ensure proper functioning and compliance with specifications.
- Maintain meticulous records of work, including schedules, equipment logs, and service reports.
- Care and division of work with the team in installing fire systems and surveillance systems in industrial facilities and ensuring that the system works.
- Offer guidance to junior electricians and apprentices for their professional growth.

## Panel Assembler

**Compto Electrical Industry** [ 09/2021 – 02/2022]

- Perform inspections ensure peak performance of electrical systems.
- Proficiently wire both fixed and draw-out boards, ensuring precision and adherence to industry standards.
- Manufacture, installation and maintenance of electrical panels DB, SMDB, EDB, MCC.
- Specialize in installing and maintaining General Low Voltage Panels up to 5000 A, 4000 A, and 2500 A,
- Proficiently prepare distributors, ensuring structural integrity and safety.
- Proficiently wire Programmable Logic Controllers (PLC) and Variable Frequency Drives (VFD).

## Electrician

**Manar Electricity and Technology Company** [10/2020 – 09/2021]

- Proficient in blueprint and schematic drawing analysis and adherence to design specifications.
- Installation of building electricity systems, employing industry best practices and safety protocols.
- Optimization of home automation systems, enhancing convenience and efficiency for occupants.
- Skilled in managing advanced electrical systems for smooth operation and troubleshooting.
- Proficient in the wiring and integration of home automation components and functionality.

## Maintenance Agent

**Logistics Light** [09/2017 – 09/2018]

- Expertise in testing, troubleshooting, and repairing various electrical equipment and systems.
- Focusing on customer satisfaction by delivering efficient, reliable, and cost-effective maintenance solutions.
- Ensuring high-quality workmanship and adherence to safety standards in all maintenance activities.
- Address electrical faults promptly, minimising downtime and disruptions to operations.

## EDUCATION

---

### Professional Technician Certificate

2018/2020

*Sectoral Center for Training in Electricity and Maintenance of Biomedical Equipment in Tunisia.*

- **Manufacturing Electrical System.**

### certificate of professional competence

2016/2017

*Sectoral center for training in leather and shoes in Tazarka.*

- **Electricity Cable Worker.**

## LANGUAGE SKILLS

---

**Mother tongue(s):** Arabic

**Other language(s):**

## English

**LISTENING B1 READING B1 WRITING A2**

**SPOKEN PRODUCTION B1 SPOKEN INTERACTION B1**

## French

**LISTENING A2 READING A2 WRITING A1**

**SPOKEN PRODUCTION A2 SPOKEN INTERACTION A2**

*Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user*

## SKILLS

---

### Detail:

- Electrical Systems Installation
- Blueprint Interpretation
- Basic computer skills
- Troubleshooting Expertise
- Safety Compliance
- Wiring and Circuitry Testing and Inspection
- Equipment Maintenance
