Dear Recruiter,

I am writing to apply for the Helpdesk support position, Networks IT, computer installation, assistance that was advertised on your website. With a degree in IT Technician, networks of computers, hardware with experience in technology, I believe I have a lot to learn from my future colleagues but, also saying this work is allowing us to contribute to your team. Adapt to any area of work, even as **DRIVER, INTERNATIONAL DRIVING LICENSE category -C-** with coverage of **over 150 countries around the world**, including PORTUGAL. With 23 years of driving experience, 8 to 10 hours of trips. I like to be happy, I don't smoke, I don't drink alcohol and **I love my family**.

I feel that my experiences may in one way or another do not contribute to the development of the company. I'm always ready for a new apprenticeship or internship within the company and show my humble way of acting at the reception of colleagues and help in whatever way they can to better respond to the company's customers. I like computer networks and network administration Windows just as I am a fan of the Linux operating system. For me, it would be an excellent opportunity to be and fulfill your company's menu. During my career, I contribute to the company FALSON SERVICES, MUL-TINET, LDA, AMATECH -ANGOLA, CARRINHO SA in Angola as CCTV Technician and course trainers for user optics. I like working in a team and solving problems  
problems creating new skills.

I don't know programming and I don't like this complex area of thought. I look forward to working in a team and have a passion for technology. I'm a Linux researcher and I'm majoring in CCNA COMPTIA networks. I appreciate your insight and I am available to discuss mine application in an interview. I am sending you my CV.

Yours sincerely,  
ANTÓNIO ZACARIAS
