A Junior Architect with 2 years of experience in the industry. I am Passionate, detail-oriented, have great technical skills and design abilities, and I am actively seeking opportunities to create, explore, and learn more about the Professional Architecture field.

WORK EXPERIENCE

Junior Architect | Studio Twelve Designs

2022 - Present

My role as Junior Architect entrusts me with the ability to collaborate and work with other team members to identify and propose solutions for design challenges while I also do the following responsibilities:

- Helps plan and design buildings along with Architect or Design Manager
- Prepares designs, complete construction documents, write up building plans and assists in presentation of materials
- Completes design drawings in AutoCAD and assists in reviewing project proposals
- Coordinates the details of an architectural project including building specifications, dimensions, assisting with initial project research and outlining project schedules and tasks

Freelance Architectural Designer

2020 - 2022

- Creates 3D renders based on client's project brief and proposals

SKILLS

Architectural Design • Schematic Design • Code Compliance
Space Planning • Programming • SketchUp • AutoCAD
Lumion • Revit
