In the dual role of Delivery and Merchandizer, I excel in ensuring prompt and secure deliveries while maintaining a sharp focus on optimizing product presentation. With a keen eye for detail, I navigate efficient delivery routes and coordinate logistics for timely product distribution. Simultaneously, I strategically merchandise products, creating visually appealing displays and adjusting inventory levels to drive sales success. This integrated approach enhances the overall customer experience and contributes to the seamless coordination of delivery and merchandising operations.

Experience

2020 - 2023

Turkonnct(Food and Trading Company) | Qatar

Van Salesman

As a van salesman, my duties and responsibilities encompass ensuring the timely and secure delivery of messages, documents, or packages. This involves efficiently planning and executing delivery routes, maintaining a professional and courteous demeanor during interactions with clients or recipients, and confirming accurate receipt of deliveries. I am also responsible for managing delivery documentation, adhering to safety protocols, and promptly addressing any issues or inquiries related to the delivery process.

2018 - 2020

Unichem limited | Qatar

Merchandiser

As a seasoned merchandiser at Unichem chemical factory, I've accumulated four years of expertise in chemical manufacturing, specializing in the production of sodium hydrochloride and ferric chloride. In addition to overseeing the manufacturing process, my role extended to the efficient delivery of various chemical products. I ensured the secure transportation of items such as Caustic soda, Ammonia, Sodium metabolite, Hydrogen peroxide, Sulfuric acid, and Hydrochloric acid. This encompassed coordinating deliveries to a diverse range of equipment, including tellers, forklifts, and tankers.

My responsibilities demanded meticulous attention to detail, strict adherence to safety protocols, and effective communication to guarantee the successful production and timely delivery of chemical products. I successfully managed the secure transportation of these items to various locations, including Aqua Chemi, Raslafan, Dolphin Energy, Veoliya, Delux Trading, and Mazarti. This demonstrated my ability to handle complex logistics and ensure the safe and timely delivery of chemical products to different destinations.

Skills

1. Visual Merchandising: Expertise in creating visually appealing displays to enhance product visibility.
2. Inventory Management: Proficient in monitoring and managing stock levels to prevent shortages or excess.
3. Customer Engagement: Ability to understand customer preferences and tailor displays to meet their needs.
4. Communication: Effective communication skills for collaboration with sales teams and clients.
5. Route Planning: Proficient in planning efficient delivery routes to optimize time and resources.
