EXPERIENCE

International estimating LLC

Junior Architect / 2021-2023

- An architectural designer is responsible for the design of a construction project. They use their knowledge of maths, science, construction and design to create designs that both look good and are efficient to build. They collaborate with clients to confirm the project requirements, budget and schedule.

Softrick Solutions

Junior 3D Modeling

- Based on a brief and/or concept art, 3D modelers digitally build, sculpt, and add detail to 3D characters, props, vehicles, and sets, often referred to as assets.
