Kavyam Designs, Thrissur, Kerala

Key responsibilities

- Transferred all field drawings to Auto Cad systems.
- Worked in cooperation with professional staff to assist with civil engineering drafting and design operations utilizing AutoCAD LDT.
- Collaborate with engineers, architects, and construction teams to interpret and implement design specifications.
- Revise drawings and plans according to feedback from clients, architects, and engineers.
- Manage deadlines and priorities.
- Prepare 2D drawings and 3D models for various projects.
- Review and modify existing drawings to ensure compliance with project requirements and industry standards.
- Design and develop 3D visualizations and architectural renderings using 3DS Max, Revit, or other relevant software.
- Maintain and update project documentation, including drawings, schedules, and progress reports.
- Supervise and oversee construction activities, ensuring adherence to design plans and specifications.
