OVERSEAS EMPLOYMENT:

Company	:	L&T (LARSEN TOUBRO ATCO Saudi) Kingdom of Saudi Arabia
Position	:	Electrical Technician/ October 8,2013 – October 8, 2015

Job Summary: The Building Electrical Technician is responsible for the installation, maintenance, and repair of electrical systems within buildings. This includes wiring, circuit boards, lighting, and other electrical equipment. The technician ensures that all electrical work complies with local and national electrical codes and standards.

Key Responsibilities:

1. Installation and Maintenance:

- Install electrical systems, components, and equipment following blueprints, schematics, and technical drawings.
- Perform routine maintenance on electrical systems to ensure functionality and safety.
- Upgrade electrical systems to meet current codes and capacity requirements.

2. Repair and Troubleshooting:

- Diagnose and repair electrical issues, including faulty wiring, circuit breakers, and lighting fixtures.
- Use testing devices such as ohmmeters, voltmeters, and oscilloscopes to diagnose system malfunctions.

- Repair or replace wiring, equipment, and fixtures using hand tools and power tools.

3. **Safety and Compliance:**

- Adhere to all safety protocols and guidelines to prevent electrical hazards.
- Ensure all work complies with local and national electrical codes and standards.
- Maintain a clean and organized work environment to prevent accidents and injuries.

4. **Documentation and Reporting:**

- Maintain accurate records of work performed, including maintenance logs and repair reports.
- Communicate effectively with supervisors, clients, and other team members regarding the status of electrical systems and any required repairs.

Prepare cost estimates for new installations and repairs
