Adil Jahangir

Architectural Draftsman plus 3d visualizer

PROFILE

A professional, dedicated and self-motivated CAD Draftsman more then 10 years working experience with reputable and established associations, on various residential and commercial infrastructure and building projects. I am seeking to take up a challenging role as a CAD Draftsman and take on creative and diversified projects.

PROFESSIONAL EXPERIENCE

Pro-Health Association Of Pakistan -Architectural Draftsman

(Sep 2019 to Present)

Pro Health is a pioneer in design-build specializing in hospital architectural and construction services.

KMH & ASSOCIATES -Architectural Draftsman

(Nov 2016 to Aug 2019)

PROJECT NAME:

US based firm with its main office location in Muscat and branch office in Lahore. The company specializes in Modern Villas Parking Plaza Shopping Centre& Chalets

AI MABANI GENERAL CONTRACTORS RIYADH (KSA)

(July 2014 to October 2016)

Riyadh Metro Project, Saudi Arabia's sprawling and congested capital is in a race against time to complete its SR85 billion (\$22.5 billion) metro system within four years.

LANGDON WILSON INTERNATIONAL (PVT) LTD

(Jan 2012 to June2014)

US based firm with its main office location in Los Angeles and branch office in Lahore. I was responsible for producing architectural tender drawings for currently active projects in Kuwait and Pakistan. The company specializes in school and hospitals.

PROJECT NAME: SPECIAL NEED SCHOOL COMPLEX

Jahra ,Hawalli , Fintas (Kuwait)

The Special Needs School Complex project provides state-of-the-art facilities for 9,000 special needs students on three separate campuses located in Hawalli, Fintas, and Jahra, in the State of Kuwait. The project serves students belonging to various disability groups, including blind, deaf, disabled, down syndrome and autism. Facilities include classrooms, instructional and research laboratories, athletic facilities, and arts studios, as well as administrative offices, student/faculty lounges, cafeteria, and residential facilities. Each campus is anticipated to have 220,000 Sq.M of gross building area, with 12 to 18 buildings on each campus. Typically, each building will focus on a single disability area, accommodating between 100 and 300 students.
