Summary

Dedicated Mechanical Project Engineer with 14 years of experience in industrial equipment maintenance. Proficient in mechanical systems, troubleshooting, and project management, I aim to transition into a Sales Engineer role where I can apply my technical expertise to solve client challenges and drive business growth. Fluent in English, French, and Arabic, with a strong ability to communicate complex concepts to diverse audiences.

Key Skills

- **Technical Expertise:** Mechanical systems, equipment maintenance, diesel engines, generators, troubleshooting, repair.
 - **Project Management:** Planning, scheduling, technical documentation, quality assurance, project oversight.
 - **Sales & Communication:** Client needs assessment, solution proposal, relationship building, technical presentations.
 - **Software Proficiency:** Visual Basic (VBA), Microsoft Project, Microsoft Office Suite, Database Management.
 - **Languages:** English (Intermediate), French (Fluent), Arabic (Fluent).
-

Professional Experience

Mechanical Project Engineer

MEI Industrial Equipment Maintenance Company SPA | Dec 2013 – Present

- Lead the preparation of technical files, collaborating closely with business engineers.
- Conduct expert evaluations on received equipment, identifying repair needs and missing components.
- Oversee the complete technical documentation process, ensuring alignment with industry standards.
- Supervise partial and general overhauls of diesel engines; coordinate on-site inspections and generator interventions (CAT3304, DEUTZ, CMI).
- Manage project planning, execution, and quality control, ensuring timely delivery and client satisfaction.

Site Engineer

ALRIM SPA | Mar 2010 – Sep 2013

- Ensured the implementation of quality procedures and compliance with updated plans.
- Provided technical support during construction, resolving issues on-site.
- Conducted inspections and validated customer assembly receptions, focusing on welding control and final quality checks.

Skills Trainer (Volunteer)

Youth Center | Jan 2015 – Present

- Conduct training sessions, focusing on skill development for individuals with traumatic brain injuries.
- Develop and deliver customized training programs to improve communication and technical skills.

Education

Master's in Mechanical Engineering (Renewable Energies)

University Kasdi Merbah Ouargla | June 2022

Bachelor's in Mechanical Engineering (Mechanical Construction)

University of M'hamed Bougara Boumerdes | June 2009

Personal Attributes

- High sense of responsibility, ethical conduct, and cultural awareness.
- Creative thinker with strong problem-solving abilities.
- Adaptable to diverse work environments and pressure situations.
- Committed to continuous learning and professional growth.
