EXPERIENCE

Architect at Enertech Safety Training Center, Qatar

- Responsible for the complete design and planning of their upcoming new safety center in Turkmenistan. Envisioned a completely feasible and efficient facility with a strong suit of safety.
- Oversaw project scope, timelines, and budget, resulting in the successful launch of the new infrastructure and improved site reliability metrics
- Designed and implemented multiple renovation works within the facility, increasing the value to the existing structures

Junior Architect at Green Canopy Innovations, Thrissur

- Team member who was responsible for creating the most functional designs for several residential and commercial structures.
- Had the opportunity to conduct and lead client meetings and project presentations and was also a part of their interior designing team from which I have developed a new field of interest.
- Coordinated conferences and meetings with multiple companies and distributors regarding the projects
- Provided administrative support to senior Architects and the clients resulting in improved productivity.
