

ALISHBA

TOQEER

Architect

ABOUT MYSELF

As a deeply committed architect, I aim to create sustainable buildings that enrich lives through creative use of resources and eco-friendly practices. With a focus on extraordinary design and diversity, I craft spaces that cater to diverse user needs, believing architecture should evoke emotional, spiritual, and psychological responses. I harness color theory to shape moods and behaviors. For me, architecture is not just a profession but a medium for storytelling and a vehicle for positive change in the world.
