 Dammam, Saudi Arabia

### About me

Objective Experienced and dedicated Swimming Pool Construction Technician Foreman with over 13 years of expertise in pool construction, maintenance, and project management in Dammam and Al Khobar. Adept at leading teams, ensuring project deadlines are met, and maintaining high safety and quality standards. Seeking a position where I can contribute my skills and experience in the construction industry.

### Work Experience

#### Job Title • orbit art

May 2011 - present

Work Experience - 13 years

Swimming Pool Construction Technician Foreman

Various Projects in Dammam and Al Khobar

Lead and supervise teams in the construction, installation, and maintenance of swimming pools, spas, and water features for residential and commercial projects. Coordinate daily tasks, including excavation, piping, waterproofing, tile setting, electrical wiring, and pool equipment installation. Ensure all projects meet safety, quality, and regulatory standards. Collaborate with clients, architects, and engineers to ensure smooth project execution and customer satisfaction.

Train and mentor junior technicians and laborers to ensure proper techniques and best practices. Oversee procurement of materials and manage project budgets to ensure cost-efficiency. Troubleshoot and resolve technical issues on-site to minimize delays and ensure timely completion of projects. Perform routine inspections and maintenance checks on completed pools to ensure longevity and proper function.

## Education

Aug 2005

Anjuman institute

Diploma in ITI
