SUMMARY

As an Architectural Draughtsman, I bring a strong understanding of technical design principles and a keen eye for detail to create accurate and comprehensive architectural plans. My proficiency in CAD software, combined with my ability to collaborate effectively with architects and engineers, allows me to contribute to the successful completion of complex projects. With a solid understanding of building codes and regulations, I ensure all designs adhere to required standards. My commitment to continuous learning and staying updated with the latest industry trends makes me a valuable asset to any architectural team.

WORK EXPERIENCE

Architectural Draughtsman

08- 04 - 2024 _ 25 - 09 - 2024

Vibrent Grpup - Doha - Qatar

- Amending drawings as per architect's feedback.
- Ensuring all changes are incorporated without compromising design integrity.
- In my role as an Architectural Draughtsman, I was responsible for the execution of layout plans, ensuring they are accurate, detailed, and in line with the project's specifications. My duties include amending drawings as per the architect's feedback, making sure all changes are incorporated without compromising the design's integrity. I also work closely with the construction team to ensure the plans are feasible and practical for execution. My ability to visualize and translate complex architectural concepts into clear, understandable plans is a key strength. I am also adept at using various drafting software to create, modify, and refine high-quality architectural drawings.

Architectural Draughtsman

01- 05 - 2021 _ 05 - 06 - 2023

Redco International - Doha - Qatar

- Creating accurate and detailed technical drawings and physical models of architectural designs.
- Collaborating with architects and other professionals to understand and interpret design specifications and requirements.
- Reviewing and revising drawings to execution on site management on site work of construction.
- Changes or modifications to designs as directed by architects or project managers.
- Maintaining accurate records and ensuring proper documentation of drawing versions and revisions.
- Operating and maintaining specialized drafting equipment and software participating in design review meetings
- and providing input as needed.
- Conducting site visits and field measurements as necessary Incorporating changes or modifications to designs as

Draughtsman / Site Supervisor

12- 06 - 2019 _ 04 - 05 - 2022

The Wow Architects - Islamabad - Pakistan

- Ensuring drawings are completed within established deadlines and budget constraints.
- Maintaining accurate records and ensuring proper documentation of drawing versions and revisions.
- Operating and maintaining specialized drafting equipment and software.
- Participating in design review meetings and providing input as needed. I collaborate closely with architects and other design professionals, ensuring that the drawings align with the design intent and project requirements. It is my duty to maintain a keen eye for detail, ensuring the precision and accuracy of measurements, dimensions, and annotations.

Site Supervisor / Draughtsman _ Internship

12 - 01 - 2017 _ 14 - 01 - 2018

A.A.S - Ajmal Art Studio - parachinar - Pakistan

- Supervising and directing the work of construction crews and subcontractors, providing guidance, support, and feedback to ensure efficient and high-quality workmanship.
- Maintaining accurate and up-to-date documentation, including project records, reports, change orders, and progress updates.
- Collaborating with project stakeholders to resolve any issues, conflicts, or disputes that may arise during the construction process.
- Implementing and enforcing safety protocols and procedures to create a safe working environment for all personnel on the construction site.
- Fostering effective communication and collaboration among team members, facilitating regular meetings, progress updates, and coordination efforts.
- Ensuring that the construction site is clean, organized, and free from hazards, implementing appropriate measures for waste management and environmental protection.
- Staying updated on industry trends, advancements, and best practices related to architectural principles and construction techniques.
- Ensuring drawings are completed within established deadlines and budget constraints.

Site Supervisor_Internship - Part Time

01 - 02 - 2016 _ 14 - 09 - 2016

ArchAngle Studio G-9 / 3 - Islamabad - Pakistan

- Overseeing and managing the day-to-day operations of the construction site, ensuring compliance with architectural plans, specifications, and quality standards.
- Coordinating and communicating with architects, engineers, contractors, and subcontractors to ensure the smooth execution of the construction project.
- Conducting regular site visits and inspections to monitor progress, identify potential issues, and implement corrective measures as necessary.
- Ensuring that all construction activities adhere to relevant building codes, regulations, and safety standards.
- Reviewing architectural plans, drawings, and specifications to verify accuracy and feasibility, and addressing any discrepancies or conflicts that may arise.
- Monitoring and controlling project costs, including labor, materials, and equipment, to ensure adherence to the budget.
- Coordinating the procurement and delivery of construction materials, equipment, and supplies to the site, ensuring timely availability and proper storage.

WORKSHOPS

Entrepreneurship Development

05 - 12 - 2015

im |sciences H R D C

Peshawar- Pakistan

- The IMSciences Institute in Peshawar organized a seven-day entrepreneurship training workshop focused on business management and planning. The workshop, conducted under the Human Resource Development Program, aimed to equip participants with essential skills for successful ventures. It covered topics such as strategic planning, financial management, marketing strategies, and business plan development. Experienced instructors and industry experts facilitated interactive sessions, including group discussions and hands-on exercises. The workshop provided a valuable platform for aspiring entrepreneurs to enhance their business acumen and networking opportunities, fostering a solid foundation for future endeavors.

Art and Craft

12 - 02 - 2020

Harfun Studio

Islamabad - Pakistan

- Attending the 12-day workshop at Harfun Studio in Islamabad, organized by the National College of Art (NCA), was a highly enriching experience. The workshop focused on art and craft, specifically wooden lights, carving, and sculpture. Under the guidance of skilled instructors, I had the opportunity to refine my skills, explore new techniques, and engage in vibrant discussions with fellow participants. The workshop fostered a collaborative and inspiring environment, allowing for personal growth and a deeper appreciation of artistic craftsmanship. Overall, it was a transformative journey that left me with cherished memories and a renewed passion for art.

"Gratefully Yours,"
