Objective

To utilize 11 years of professional experience and all the skills acquired through working in different positions to add value to an organization by positively impacting its performance. I started working for MTI, JLR dealer in Egypt, as a local technical support manager assistant then promoted to a diagnose engineer and technician supervisor and last promoted to workshop manager. I am currently looking forward to get a chance of moving forward with my professional career to gain more managerial and technical experience with higher responsibilities.
