More about Myself

My aim is to obtain a position with a company that will utilize my excellent customer service skills along with my advanced industrial experience specializing in diesel machine, turbine, generator and hydraulic fluid power system.

Frequent use of discretion as well as judgment along with the ability to handle independent project helps me in performing a job with full efficiency.

I really need good exposure to get knowledge. And to grow more economically. These are some of the reasons I left earlier jobs. And this will be the priority reason to leave now a day's job.

Declaration

I here declare that the particulars of information and facts stated herein above are true, correct and completeto the best my knowledge and belief

Yours sincerely
Biju Varughese
