WORK EXPERIENCE

Ashko Engineering Consulting Center (Mar 2024 – Present) – Qatar

submitting architectural and construction drawings to the municipality to obtain a building permit and follow up on implementation procedures and construction steps. Complete AutoCAD drawings.

Open Limits Design (Dec 2023 – Feb 2024) – Qatar, Lusail – QIG Tower

Venture forth to meet with patrons, delving into their visions, needs, and resources.

Conjure mood boards and unveil designs, weaving together intricate illustrations of both the exterior and interior.

Weave together unique plans for private villas, sculpting each detail to fit the desires of the client.

Unveil a trio of proposals for villa elevations, each telling a tale of modernity, neoclassicism, or contemporary charm.

Coalesce with local regulations, ensuring that each construction project remains within the bounds of all constraints.

Craft shop drawings and as-built plans, crafting a tapestry of meticulous detail.

Journey to the site once per week, offering mystical insights and observing the construction work, ensuring it aligns with the design specifications.

Nubian Stone (Mar 2019 – Apr 2023) – Sudan, Khartoum

Preparing architectural and construction drawings and submitting them to the Ministry to obtain building permits.

Follow up and supervise the site works, including excavations, concrete and structural structures, sand iron, and follow up on finishing works, from whitewashing to sewage and surface works, water connection, and sewage connection.

Handing over the entire project to the owner.

Post-delivery maintenance services as requested by the owner.

SKILLS

Professional AutoCAD

Architectural Design

Building Information Modeling (BIM)

AutoCAD & Revit Proficiency

3D Modeling & Rendering

Construction Documentation

Structural and Material Knowledge
