## About Me

---

I am a graduate of a Bachelor's degree in Civil Engineering. I have several work experiences, including being a construction supervisor, electrical, logistics, welder, and I have also participated in a heavy equipment mechanic training program at the Labor Training Center (BLK). I can operate Microsoft Office. I am a hard worker and enjoy learning new things for personal development, I also have good communication skills, responsible and honest and can work well in teams and individually. In my work, I strictly adhere to safety regulations.
