ABOUT ME

A professional electrical technician with experience in architectural and industrial electrical systems, specializing in the design, installation, maintenance of electrical systems, motors, and industrial control systems. I possess strong technical and analytical skills and aim to join a professional team to implement electrical projects with the highest standards.

WORK EXPERIENCE

INTERN – AGRICULTURAL MACHINERY ELECTRICAL MAINTENANCE

Agricultural Tractors Company (ETRAG). October 2019 – March 2022

- Perform maintenance and repair of electrical systems in agricultural tractors and machinery
- Test electrical equipment after maintenance to ensure proper operation

INDUSTRIAL ELECTRICAL TECHNICIAN – MAINTENANCE AND REPAIR OF ELECTRICAL EQUIPMENT

SCHB Cement Factory. April 2022 – September 2022

- Maintenance and repair of three-phase electric motors and industrial generators
- Installation and maintenance of Variable Frequency Drives (VFDs) and automated control systems
- Inspect electrical systems and update them to ensure optimal performance and reduce energy consumption
- Prepare technical reports on equipment performance and analyze maintenance data

ARCHITECTURAL ELECTRICAL TECHNICIAN – INSTALLATION AND MAINTENANCE OF ELECTRICAL SYSTEMS

Electrical Contracting Company. March 2023 – September 2024

- Design and implement electrical installations for residential and commercial buildings
- Installation and maintenance of distribution panels, breakers, and smart switches
- Inspect electrical circuits and make necessary adjustments to comply with safety standards
- Install smart control systems for homes and offices
