CAREER OBJECTIVE

Architectural and Civil Draftsman with over 6 years of experience in producing high-precision technical drawings for residential, commercial, and infrastructure projects in Sri Lanka and Qatar. Career highlights include delivering 250+ shop and as-built drawings using AutoCAD, Revit, and SketchUp for aluminum facades, MEP layouts, and civil infrastructure. Recognized for cross-functional collaboration with engineers and architects, meticulous attention to detail, and adherence to regulatory standards. I aim to leverage my expertise in technical drafting and BIM workflows to contribute to large-scale construction and design projects in dynamic, quality-driven environments.

TECHNICAL SKILLS & COMPETENCIES

- **Software Proficiency:** AutoCAD, REVIT, SketchUp, Microsoft Project, Excel, Word
- **Technical Skills:** Architectural & Civil Drafting, Shop & As-Built Drawings, Structural Detailing, Technical Report Writing, Cost Estimation & Quantity Surveying
- **Soft Skills:** Time & Resource Management, Collaboration & Communication, Mindfulness, Problem-Solving & Decision Making

PROFESSIONAL EXPERIENCE

Bestco Aluminium and Steel W.L.L | Architectural Draftsman

Dec 2022 - Present

- Created 100+ shop drawings using AutoCAD and Revit for Aluminium doors, curtain walls, and kitchen fittings, ensuring dimensional precision and compliance with architectural standards.
- Produced accurate as-built drawings using AutoCAD based on site modifications, ensuring alignment with local building codes and final project handover requirements.
- Facilitated cross-functional coordination through weekly design review meetings and real-time CAD updates, improving design turnaround time by 20%.
- Managed drawing archive of 500+ technical documents using standardized file-naming protocols, improving document retrieval and audit compliance.

Athambawa & Sons | Civil Draftsman

Jul 2020 - Nov 2022

- Drafted comprehensive CAD drawings for road and irrigation projects, ensuring adherence to engineering and design standards.
- Maintained and updated project documentation, technical specifications, and revisions with precision.
- Collaborated with engineers to incorporate design changes, upholding regulatory compliance and technical accuracy.

Pearl Construction, Sri Lanka | Architectural Draftsman

Sep 2017 - Feb 2019

- Created 2D architectural drawings for residential and small commercial buildings using AutoCAD, translating engineer specifications and hand sketches into accurate construction-ready plans.
- Conducted field measurements and site assessments for draft accuracy, ensuring alignment between design and real-world conditions, which reduced revision cycles.

ACADEMIC QUALIFICATION

Department of Technical Education and Training, Sri Lanka

National Diploma, Construction Technology

CAD Academy, Sri Lanka

Diploma, Building Information Modeling with Revit Architecture

Department of Technical Education and Training, Sri Lanka

National Certificate, Engineering Draftsmanship

Pebbles Academy, Sri Lanka

Certificate, AutoCAD

The Academy, Sri Lanka

Certificate, MEP Quantity Surveying Practice

TRAINING & CERTIFICATIONS

- **Design, Construction & Maintenance of Roads - Correct Practices:** 1 Day - Online - Construction Industry Development - Authority of Sri Lanka (CIDA) (2022)
- **Computer Typesetting and Image Editor:** 6 Months - National Apprentice and Industrial Training Academy (NAITA) (2016)
- **Leadership and Personality Development Training:** 3 months - National Youth Corps (2017)
- **Adventure based Personality Development & Leadership:** 4 days Outbound Training - National Youth Corps (2016)

PERSONAL PROFILE

- English (Professional), Tamil (Professional), Malayalam (Intermediate)
