TECHNICAL EXPERTISE

- Regulatory Compliance (ISO 9001:2015, IATF- 16949:2016)
- Proficient in IATF core tools (APQP, Control plan, PPAP, MSA, SPC, FMEA)
- Quality Management Systems (QMS)
- Process Improvement and Continuous Improvement methodologies
- Statistical Process Control (SPC) and Data Analysis
- Root Cause Analysis and Corrective Actions
- Supplier Quality Management
- Risk Assessment and Mitigation
- Enterprise Resource Planning (ERP) systems
- Material Testing: UTM, Impact Testing, MicroVicker Hardness Testing, and Magnetic Particle Testing
- Material Analysis and Characterization: Optical Microscopy and Spectroscopy
- Supplier selection, evaluation and development

TRAINING AND CERTIFICATION

- Internal auditor ISO 9001: 2015
- Internal auditor I ATF 16949:2016

PROFILE SUMMARY

As a Quality Manager with 12+ years of experience in the automotive fastener industry, I am a results-oriented leader who has developed expertise in quality control processes, auditing, and testing procedure development. My track record of success includes leading cross-functional teams, improving internal processes, and ensuring compliance with industry standards and customer requirements. I am dedicated to continuous improvement and focused on driving results for the organization.
