### **Professional Summary**

I am a seasoned and certified electrical technician with over twelve (12) years of electrical engineering development.

I possess a comprehensive knowledge of electrical regulation, codes and international best practices.

Experienced in installing, testing and maintaining electrical systems and equipment in domestics, commercial and industrial environment.

My level of energy is highly suitable for rigorous duties which involve mobility in operations.

Having a comprehensive understanding of engineering safety regulations, I currently want to advance my career successfully by working with ambitious and expanding organizations.

### **Key skills & Attributes.**

- Organized and efficient with a strong work ethic, capable of working independently and collaboratively to foster positive client relationships.
- Maintaining and repairing of electrical equipment and plant
- Fast learner with the ability to quickly acquire and apply new technical skills under minimal supervision.
- Motivated, resourceful, and adaptable, possessing a diverse range of valuable skills crucial to electrical installations and maintenance.
- Effective communicator, comfortable engaging with individuals at all levels, ensuring clarity and understanding in project execution.
- Committed to delivering success in every task, demonstrating confidence and dedication in achieving professional objectives.

### **Career Objective**

Seeking to leverage my technical knowledge and practical experience to excel as an electrician's mate/improver, contributing effectively to project success while continuing to advance my skills and certifications within the electrical industry.

### **Work History.**

Dates: From: 06/2024. To: 11/2024

Company Name: Site and Site

Job Title: Multi TaskTechnician

#### **Main Duties**

Assisting in mounting of solar brackets and stands using power hand tools.

Company Name: Magenet Technology & Services Ltd

Job Title: Field Technician

Main Duties.

Installation of AVL( Automatic vehicle Allocator) in Trucks.

Dates: From: 02/2010 To: 11/2011

Company Name: Atomic Energy Commission

Job Title: Electrical Technician

Main Duties.

Servicing and maintainance of electrical equipment.  
Installation of of electrical plant.

## **EDUCATION & TRAINING**

### **Elec Training**

Dates: From: 11/2024. To: 0/2025

Level 2 City & Guilds Diploma in Electrical Installation –Buildings & Structure(2365 -02).  
18th Edition Wiring Regulations - (1 week) Level 3 City &Guilds 2382-22

### **APCS Automation**

Dates: From: 05/2019 To: 08/2019

Industrial control and Automatio

### **Professional college of Engineering**

Dates: From: 01/2012 To: 07/2012

Level 5 Ivq City & Guilds Advanced Technician in Electricals and Electronics Engineering  
(8030 – 23)

Dates: From: 01/2009 To: 06/2009

Level 3 Ivq City & Guilds Advanced Technician in Electricals and Electronics Engineering  
(8030 – 22)

## **Royal Technical college**

Dates: From: 05/2005 To: 06/2007  
Electrical Installation works Cours B.

### **CERTIFICATE & LICENCE**

Cscs  
IPAF 3a & 3b

### **HOBBIES & INTERESTS**

I have a variety of hobbies and interests. One of which is sports, the sport I am most interested in however is football. Another one of my hobbies is going to the gym in my spare time. Going to the gym for me is a good way to focus while also staying in shape. Math Blaster is another hobby of mine as it involves hand/eye coordination and mathematical skills.

### **REFERENCE IS AVAILABLE UPON REQUEST**
