

# MELBERT C. AYSON

AUTOCAD DESIGNER/DRAFTSMAN

+974 7083 4376

aysonmelbertc@gmail.com

Ain Khaled, Doha, Qatar

## Education

### Bachelor of Science in Industrial Education major in Drafting Technology

Bicol University College of Industrial Technology  
2011 - 2015  
Legazpi City, Albay, Philippines

## Certifications

### LICENSED PROFESSIONAL TEACHER

By the Professional Regulation Commission (PRC) in the Philippines

## Skills

AutoCAD, SketchUp, Revit  
3D Modeling, 2D Drafting  
Blueprint Reading  
Technical Drawing  
Elevation and Layout

## Referees

### MANELO P. ALIBATA

Owner/Proprietor  
Humano Construction and Supply  
Legazpi City, Albay, Philippines

iyas.jason@pis-qatar.com

## Professional Summary

My professional history includes work as a project draftsman, which has provided me with insight into the value of using precision in technical drawing. My goal is to actively take part in the architectural and engineering endeavors so that I can streamline all drawings and designs to automate as much precision as possible. My objective with working in teams from different departments is to realize that some of the construction ideas draw on the synergies from inter-departmental collaborations, so that I can improve on the professional training and drafting skills I have.

## Experience

### Drafting Teacher

October 2022 - Present

Philippine International School - Qatar

- Facilitate the instruction in technical drawing, application, and blueprint reading for students.
- Develop and deliver lesson plans with respect to drafting and design.
- Train students in AutoCAD, SketchUp, Revit, and other CAD software.
- Support students with drafting projects in architecture, structural, and interior design.
- Aiding development of an understanding of the industry standards, building codes, and construction principles.
- Assess student progress through practical readings and give exams.
- Provide feedback for the amelioration of drafting skills.
- A structured and stimulating environment for learning.

### Senior Draftsman/ AutoCAD Operator

Mar 2015 - June 2022

Humano Construction and Supply

- Draw technical outlines and layouts of the building structure and interior design.
- Check the accuracy of 3D models and their feasibility.
- Work with engineers and architects in preparing design documentation for infrastructure and commercial or residential projects.
- Use AutoCAD, SketchUp, Revit, and other CAD tools to prepare precise drawings.
- To comply with building codes and industry standards.
- To produce working drawings: plans, elevations, and sections.
- To conduct site inspections, measurements, and evaluations for the construction.
- Put comments and changes into working drawings.
- Maintain due control over technical specifications, material properties, and number dimensions.
- Organize and manage project documents, blueprints, and drawings.
