

Hamza Jebali

Mechanical Supervisor

About me

I started my career as a mechanic at Citroën Tunis. Then I worked as a service advisor, taking care of customers from car reception to delivery after repair. After that, I joined Aerotech and worked for two years as a maintenance supervisor. Most recently, I worked at Crown Holdings, an American company that makes beverage cans, as a CPO Utility Method Technician. I am dynamic, serious, and motivated. I have strong leadership and customer service skills, and I am open to new opportunities to grow and improve my technical skills.

EDUCATION

➤ Applied Bachelor Degree in Mechanical Engineering
Higher Institute of Technological Studies of El-Kef | 2017

➤ Secondary School Diploma in Technical Sciences
Ibn Abi Dhiaf Secondary School of Manouba | 2014

PROFESSIONAL EXPERIENCE

CPO Utility

Crown Holdings sept 2021-April 2025

- Performed preventive and corrective maintenance on mechanical systems including fuel dispensers, Vacuum pumps, air compressors, generators diesel, and compliance with safety standards.
- Implemented corrosion protection techniques and regularly monitored the condition of storage tanks, pipelines, to enhance equipment durability.
- Ensured full compliance with safety protocols during maintenance work in Hazardous zones through regular safety checks and risk assessments.
- Maintained technical documentation and stock levels for critical spare parts.
- Supported sustainability projects by optimizing air consumption and equipment reliability.
