About me:

I have completed my Higher Secondary Education followed by multiple technical diplomas, including Draftsman, Quantity Surveyor, and Land Surveyor. Additionally, I am trained in design software such as AutoCAD, 3ds Max, and have good working experience with Lumion, Twinmotion, Enscape, ArchiCAD, and SketchUp.

With hands-on experience in various roles across the construction field, I have successfully worked as a Draftsman, preparing detailed 2D and 3D design drawings, shop drawings, and high-quality 3D models complete with lighting, materials, rendering, and walkthrough animations. I am also capable of preparing Bills of Quantities (BOQs) and have contributed to project documentation and execution in both consultant and contractor environments.
