**To Whom It May Concern,**

It is my pleasure to provide this letter of experience for Veronica Dessalegn. Veronica worked at Sterk Engineering Solutions from August 2023 until the present day in the role of TI Manager and Design Preparation and Implementation in the Civil Works department.

During her time at Sterk Engineering Solutions, Veronica demonstrated excellent skills and expertise in the following areas:

- Managed the Telecom Integration (TI) team, overseeing the implementation of antenna to improve efficiency and productivity.
- Prepared detailed design plans and technical specifications for civil engineering projects, ensuring adherence to all relevant codes and regulations.
- Collaborated cross-functionally with project managers, engineers, and field teams to successfully implement design plans.
- Provided technical guidance and support to junior engineers, helping to develop their skills and knowledge.
- Maintained meticulous records and documentation related to all design and implementation activities.

Veronica is a highly capable and dedicated professional who consistently delivered high-quality work and went above and beyond to support the success of the organization. Her strong technical expertise, problem-solving skills, and collaborative approach made her a valuable asset to the Sterk Engineering Solutions team.

I would not hesitate to recommend Veronica for any role that requires expertise in technical design, project management, or civil engineering. Please let me know if you require any additional information.

Sincerely,

Saurab Gupta

Country head

Sterk Engineering Solutions

## To Whom it may concern

This is to clarify that **Ms. Veronica Dessalegn** is working with us dated from January 11, 2025 to present day in the position of **Site Design Engineer** on **ZTE-Ethiotelecom** project.

While working with us, she was engaged in the following major activities.

- prepare the LLD for the telecom power components.
- Manage the end-to-end installation of a new telecom system from warehouse operations to on-air activation.
- Project Coordination in dismantling project of WL and MW antennas previously installed by Ericsson, ensuring all tasks were completed on schedule and safety.
