EDUCATION

Metric

- Year: 2011
- Board: B.I.S.E Abbottabad

DAE (Diploma of Associate Engineering)

- Year: 2014
- Board: BTE Peshawar

TECHNICAL SKILLS

- Installation and termination of electrical panels and systems.
- Proficient in using Multimeter, Meggar, and Earth Volt Tester.
- Low voltage cable installation and troubleshooting.
- Installation of fire alarm, CCTV, access control, and BMS systems.
- Conduit installation (GI, PVC, EMT).
- Reading and interpreting electrical and mechanical schematics.
- Experience with a variety of low voltage cables including Cat6 and Cat5.
- Testing and commissioning electrical systems.
- Fabrication and installation of cable trays and cable trunks.
- Electrical wiring and cabling.

SOFTWARE SKILLS

- Microsoft Office (Word, Excel, PowerPoint).

SUMMARY

Dedicated and detail-oriented Foreman Supervisor with over 9 years of experience, including 4 years in the Gulf region. Expertise in electrical installations, maintenance, and troubleshooting. Proven leadership and communication skills with a successful track record of managing and completing projects on time and within budget. Seeking to leverage my skills and experience to contribute effectively to the success of a forward-thinking organization.

CARRIER OBJECTIVE

To secure a challenging position as a Foreman Supervisor in the electrical engineering field where my extensive experience and skills in electrical installations, project management, and team leadership can be effectively utilized to achieve personal and professional growth, while contributing to the organization's objectives.

WORK EXPERIENCE

Redco International

Position: Electrical Technician

Project: Oxagon Precast Factory (NEOM), KSA
