WORK EXPERIENCE

Workshop Manager

2024 - 2025

IBN FIRNAS TRADING COMPANY QATAR

A Workshop Manager oversees the daily operations of a workshop, ensuring efficient workflows, high-quality output, and adherence to safety standards. This role combines leadership, technical expertise, and strategic planning to maintain a productive and safe working environment.

Key Responsibilities:

- Team Leadership: Lead and motivate a team of technicians and support staff, fostering a positive and collaborative work environment.
- Operational Management: Develop and implement efficient workflow processes, monitor resource allocation, and ensure timely completion of projects.
- Quality Assurance: Enforce quality control measures, conduct regular inspections, and address any quality issues promptly.
- Client Relations: Serve as the primary point of contact for clients, providing updates and managing expectations to ensure customer satisfaction.
- Inventory and Budget Management: Oversee inventory levels, order supplies as needed, and collaborate with the finance department to manage the workshop budget, identifying cost-saving opportunities without compromising quality.
- Safety Compliance: Enforce safety protocols, conduct regular safety training sessions, and address any operational or personnel issues to maintain a safe working environment.

Electrical Forman / Workshop Supervisor

2015 - 2024

BOODAI TRADING COMPANY QATAR

Key Responsibilities:

- Managing Daily Operations:
 - Overseeing the day-to-day operations of the workshop to ensure that work is being completed on time and to the required standards.
- Team Leadership:
 - Supervising and guiding workshop staff, including technicians, craftsmen, or workers, ensuring that they are working efficiently and safely.
 - Assigning tasks and monitoring staff performance.
- Ensuring Health and Safety:
 - Enforcing health and safety regulations in the workshop to minimize risks and prevent accidents.
 - Conducting regular safety checks and ensuring that all employees have the necessary training in safe working practices.
- Quality Control:
 - Ensuring that the work produced in the workshop meets quality standards and client specifications.
 - Inspecting finished work and identifying areas for improvement or rework.
