SUMMARY

I am a committed site engineer with a strong technical background and problem-solving skills. Specializing in optimizing project workflows, ensuring safety, and delivering high-quality results, I excel in communication, teamwork, and timely, budget-conscious project completion.

EXPERIENCE

SITE ENGINEER (Expert)

Portland For Contracting

June 2020 - June 2022 Khartoum, Sudan

- During my tenure, I supervised the planning and coordination of concrete structure construction.
- I enhanced productivity and ensured timely material supply by maintaining strict discipline and commitment with suppliers, resulting in a project timeline reduction of approximately two weeks.
- Additionally, I conducted detailed quantity calculations and enforced rigorous quality control through thorough audits and checks from start to finish.
- This attention to detail enabled me to identify and implement the most efficient methods, significantly improving both project timelines and overall quality outcomes.

SITE ENGINEER

Freelance Engineer

April 2017 - April 2020 Khartoum, Sudan

- Acted as a freelance site engineer, collaborating with multiple clients and managing diverse projects.
- Oversaw and executed concrete and construction tasks.
- Directed construction schedules and coordinated with subcontractors, achieving a 20% increase in project completion rates within the first year.
- Supervised construction activities to ensure project milestones were achieved, reducing project timeline by 15% through effective coordination of resources and continuous on-site quality checks.

SITE ENGINEER (Junior)

Samargand Engineering

October 2011 - May 2013 Khartoum, Sudan

- I comprehensively absorbed information and observations as a foundational step.
- I progressed through site operations stages under the supervision of the senior engineer, focusing on meticulous details and thorough monitoring.
- I prioritized safety protocols, resulting in consistently high-quality outcomes.
- I excelled in effective communication and teamwork within team environments.
- My significant achievements included mastering the balance between project timelines and budgets, crucial for overcoming common challenges in project management.

EDUCATION

Diploma in Civil Engineering

Sudan University of Science and Technology • Sudan • 2011

CERTIFICATIONS

Preparing of bills of quantities and specifications

Khartoum Engineers Training Center • 2014

SKILLS

Management and Organizational Skills: Project management. • Organization skills • Time management. • Ability to work under pressure. • Attention to detail. **Thinking and Analytical Skills:** Analytical thinking. • Quantity calculation. • Estimating costs, contracts, and accounts. **Communication and Leadership Skills:** Communication skills. • Leadership and management skills. • Teamwork Passion for learning. • Financial Management. **Computer Skills:** Proficiency with relevant software (e.g., Microsoft Office, AutoCAD... etc.). **Valid Driving License** – (Qatari)
