## PROFILE

Architect and Urban Planner with over 7 years of experience in conceptualizing and designing commercial, residential, and public buildings. Skilled in creating innovative, functional, and emotionally engaging architectural solutions while ensuring compliance with local building codes and zoning ordinances. Experienced in leading project teams from concept through execution, coordinating with consultants, and delivering high-quality, on-time outcomes. Adept at blending aesthetics with functionality to produce impactful designs and sustainable urban environments. Seeking a dynamic role that offers professional growth within a collaborative and forward-thinking team.

## EDUCATION

**Master in Architecture** Jul 2019 – Oct 2021  
– University of Management and Technology (UMT), Lahore, Pakistan

I learned about the Architectural design, areas of built heritage, architectural conservation, urban design and planning, construction management, energy-efficient architecture building services, and advanced presentation skills.
