### TARGET JOB

**Target Job Title:** Electrical Technician

**Career Level:** Facilities Management

**Employment Type:** Full Time Employee

**Career Objective:** Electrical Technician with 7+ years of experience in industrial maintenance, metro rail operations, and building electrical systems. Skilled in preventive and corrective maintenance, fault diagnosis, fire alarm installation, and distribution panel management. Adept at reading blueprints, maintaining safety compliance, and delivering results on time. Seeking to contribute my expertise to a dynamic organization in Qatar.

### WORK EXPERIENCE (7 + YEARS)

#### ➤ ELECTRICAL TECHNICIAN (2023 – PRESENT)

Aktor Como Intercity Facility Management | Doha, Qatar

**Client:** Qatar Rail | **Operator:** RKH Qitarat

**Job Role:** Maintenance, Repair, and Technician

#### Responsibilities:

- Perform preventive and corrective maintenance on electrical systems across metro rail infrastructure.
- Troubleshoot and resolve complex electrical faults to minimize downtime.
- Install panels, wiring, and safety systems in accordance with rail standards.
- Interpret electrical blueprints and execute tasks according to specifications.
- Train junior technicians on maintenance procedures and safety protocols.
- Conduct safety inspections and adhere to operational and regulatory compliance.

### Achievements:

- Maintained a 100% compliance rate with scheduled maintenance tasks across all metro stations.
- Reduced average repair response time by 20% through efficient fault diagnosis.
- Successfully installed and commissioned new electrical systems for station upgrades.
- Consistently met KPIs for equipment uptime and fault resolution.
- Recognized as Employee of the Month – May 2023 for exceptional technical support and commitment to safety.

### ➤ ELECTRICAL LEADMAN (2021 – 2023)

Redco International WLL | Doha, Qatar

**Client:** Ashghal | **Operator:** Aecom

**Job Role:** Construction and Building

### Responsibilities:

- Overseeing new electrical installations in residential, and industrial settings.
- Installing and terminating distribution boards, including MCC (motor control center) and SMDB (sub-main distribution board).
- Installing cable trays and GI conduits.
- Pulling cables.
- Following safety protocols and regulations.

### Achievements:

- Successfully completed electrical installations for a variety of clients, including residential, commercial, and industrial projects.
- Installed fire alarm systems, power systems, MCC, SMDB, and ATS in multiple buildings, ensuring that they were up to code and functioning properly.
- Received multiple positive reviews from clients and project managers.
- Successfully managed a team of electricians, ensuring that they were following safety protocols and working efficiently.

### ➤ ELECTRICAL TECHNICIAN (2018 – 2021)

Power Professionals & Engineers | Islamabad, Pakistan

**Client:** Sukh Chayn | **Operator:** Mughal Pakistan

**Job Role:** Construction and Building

### Responsibilities:

- Installed electrical systems in residential and office buildings.
- Managed DB wiring, electric conduit laying, cable tray setup, and lighting installations.
- Ensured strict adherence to local safety codes and installation guidelines.

### Achievements:

- Completed 30+ successful electrical installation projects across multiple building sites.

- Built a reputation for timely project delivery with minimal rework.
- Played key role in emergency response operation, reducing outage times significantly.
- Frequently selected by supervisors for high-priority or complex assignments due to reliability and speed.
