Heaton Mersey,
Stockport,
Greater Manchester,
SK4 2AL

PROFILE

A hard working individual with a flare for architectural and construction design. A trustworthy individual who thrives for success and not afraid of a challenge in the architecture industry.

EXPERIENCE

Technical Designer (Contract Work) , Space Invader Design — 2021 - 2023

Produced high quality drawings for clients such as Manchester City Football Club, Royal Bank of Scotland and NatWest. Delivered full drawing packs for planning and construction issues including GA plans, external elevations, internal elevations, section details, joinery intent design, reflective ceiling plans amongst others, all of which were coordinated through the RIBA stages.

Architectural Technician, Rider Levett Bucknall — 2020 - 2021

Produced high quality fire plan drawings for clients such as Leeds University and police constabulary buildings. Drawings included fire doors, fire walls for various fire protection, ceiling and soffit fire protection.

Architectural Designer, EG Group — 2016 - 2020

Produced high quality drawings floor plans, elevations and feasibilities for all petrol station and drive thru restaurant sites such as BP, Esso, KFC, Spar and Burger King ranging from £250,000 to £90,000,000. Liaised with site/area managers and local authorities and also carried out measured surveys.

Freelance Work — 2015 - Present

I produce high quality floor plans, elevations, site/block plans for all projects such as extensions, loft conversions, change of use and new builds. I undertake detailed measured surveys for properties of all sizes and I am involved with and deliver high quality customer service to clients. All drawings produced are for planning and building regulations applications for both residential and commercial projects.

Project Manager, Totally Wicked — 2015 - 2016

Worked alongside the managing, operations and financial directors, I created and delivered project work plans using Microsoft Project and revised them as appropriate to meet changing needs and requirements and also to identify resources and assign responsibilities to the departments from construction, e-commerce, retail and branding.

Architectural Assistant (Internship/Training), Scheme Designs — 2015 - 2015

I produced planning and construction drawing packs for new build, change of use, renovation and conservation projects. Assisting the lead architect on measured surveys, planning and building regulation documents/drawings, planning applications and client meetings. Involved in residential, commercial and community projects throughout the UK.

EDUCATION

University of Salford — Architectural Design & Technology - 2009 - 2012
The Manchester College - BTEC in Multimedia - 2007 - 2009

SKILLS

Highly proficient in AutoCAD, Microsoft Office and Adobe Creative Suite softwares such as Photoshop and Illustrator along with basic Apple softwares such as Pages, Numbers and Keynote. Basic knowledge of Revit and SketchUp but willing to learn new skills and further my development. Extensive knowledge of planning and building regulations policies, applications and excellent attention to detail.
