ABOUT ME

I'm an architect with 3 years of experience, driven by a passion for designing eco-friendly structures that boost both human well-being and environmental balance. My background in diverse projects has sharpened my skills in design, project management, and client relations.

Specializing in façade design, furniture turnkey solutions, and fit-out work. I'm dedicated to advancing architectural innovation. I'm excited to collaborate with fellow professionals to build a human centric design experience.

WORK EXPERIENCE

ARCHITECTURAL DRAFTSMAN – AL BADR (DOHA-QATAR)

July 2025 – Present

Design & Coordination:

- Coordinate with consultants, contractors, and engineers to resolve design and construction issues..
- Ensure that the project complies with local building codes, regulations, and client requirements.
- Oversee day-to-day site activities to ensure construction works follow approved drawings and specifications.
- Monitor quality of materials and workmanship to maintain design integrity and safety standards.
- Conduct regular site inspections and prepare progress reports.
- Assist in preparing schedules, monitoring progress, and ensuring timely completion of tasks.
- Manage design changes, RFIs, and shop drawing approvals in coordination with the project team.
- Ensure smooth communication between office-based design teams and site-based execution teams.
- Provide technical guidance to contractors and workers on site.
- Review and approve shop drawings, mock-ups, and material samples.
- Identify and resolve discrepancies between drawings, specifications, and site conditions.
- Maintain records of site instructions, variations, and approvals.
- Prepare and submit daily/weekly progress reports and site meeting minutes.
- Support in preparing handover documentation and as-built drawings.
- Attend site meetings with clients, consultants, and contractors.
- Communicate project updates and address client queries effectively.
