Objective

I seek challenging opportunities where I can fully use my skills for the success of the organization.

Experience

- | | |
|------------------|---|
| September 2023 - | Shredders planet musical instruments
Salesman/guitar tech/luthier
I helps customers choose and buy products by explaining features, answering questions, and handling the sale in a physical store display area. |
| March 12 2012 - | Transind will
Sales merchandizer
A sales merchandiser makes products look attractive, available, and well-organized on store shelves and displays to maximize sales, working for a supplier within retail locations. |
| Dec. 2009 - | Dragon eye Computer parts ,Security camera, and gadgets
Salesman/Cctv installer
A Salesman & Technician sells complex technical products/services using their expert knowledge and then personally performs the installation, setup, or repair, ensuring the solution works as promised and building strong customer trust. |
| Sept.2005 - | Anchortech incorporated
Safety officer
A Safety Officer is responsible for identifying workplace hazards, ensuring compliance with safety regulations, preventing accidents and illnesses, and promoting a safe and healthy work environment for all employees. |
| July 2000 - | Automatic Appliance Centre Inc.
Salesman
A showroom salesman helps customers choose and buy products by explaining features, answering questions, and handling the sale in a physical store display area. |
| Dec.1999 - | Precision Crestec Inc
Quality Control Inspector
A Quality Control Inspector checks products, parts, or processes against specific standards, identifies defects, records results, and helps ensure only acceptable quality moves forward. |
| 1998 - 1999 | RDE builders and construction inc.
Concrete block production staff
I. Concrete Mixing and Preparation

Accurately measure raw materials such as cement, sand, gravel, and water following standard mix ratios. |

Operate concrete mixers to achieve a uniform and consistent mixture suitable for block production.

Adjust mix proportions based on environmental conditions or block strength requirements.

Add coloring agents, additives, or admixtures as specified by production requirements.

2. Mold and Machine Operation

Set up, clean, and lubricate block molds before production to ensure smooth demolding.

Operate manual or automated block-making machines safely and efficiently.

Fill molds evenly with concrete mix, ensuring proper compaction and vibration to eliminate air pockets.

Remove blocks from molds carefully to avoid damage and ensure accurate shape and dimensions.

3. Curing and Finishing

Transport newly molded blocks to the curing area using trolleys or pallets.

Apply appropriate curing methods, such as water spraying, covering, or steam curing, to strengthen the blocks.

Monitor curing time, temperature, and humidity to ensure optimal quality and prevent cracking or deformation.

Clean finished blocks and prepare them for storage or transport.

4. Quality Control

Inspect each batch of blocks for correct size, shape, texture, and strength.

Record any defects and separate substandard products for reprocessing.

Maintain production logs, quality checklists, and output reports daily.

Follow company standards and building material regulations to ensure consistent product quality.

5. Material Handling and Storage

Load and unload cement bags, sand, gravel, and other raw materials as needed.

Store materials properly to prevent contamination, moisture, or wastage.

Stack cured blocks neatly in the storage yard, ensuring stability and accessibility for transport.

6. Machine Maintenance and Troubleshooting

Conduct daily checks and cleaning of mixers, conveyors, and molds.

Lubricate moving parts and ensure machines are in proper working condition.

Report any malfunctions, wear, or breakdowns to the maintenance technician or supervisor.

Assist in simple mechanical repairs or adjustments when required.

7. Health, Safety, and Housekeeping

Follow all workplace safety procedures, including wearing personal protective equipment (PPE).

Handle cement and chemicals with care to prevent skin or respiratory irritation.

Maintain a clean and organized work area, free from debris and tripping hazards.

Report unsafe practices or conditions to the supervisor immediately.

8. Teamwork and Productivity

Work closely with fellow block makers, loaders, and supervisors to meet daily production targets.

Communicate effectively with team members to ensure a smooth workflow.

Assist in loading finished blocks for delivery or customer orders.

Contribute ideas for improving production efficiency and minimizing material waste

Education

1995	Europhil college Computer technology
Febuary 2009	Meralco Foundation Building wirring installation
May 2012	TESDA Shielded metal arc welding

Skills

- Communication skills
- Professionalism and appearance
- Technical skills
- Product demonstration
- Persuation and sales technique
- Negotiation skills
- Product knowledge
- Time management
- Problem solving skills

Languages

- English, slight arabic, filipino,

Personal Details

- Date of Birth : April , 26, 1975
- Marital Status : Married
- Nationality : Filipino
- Gender : Male

Training Attended

- HABC L2 FIRE SAFETY
DISS DOHA INDUSTRIAL SAFETY SERVICES
October 5 2018
DOHA QATAR
