

FAJARUDHEEN

Senior Architectural Draftsman

+974 66198493 | fajarudheen@gmail.com | Doha, Qatar

Professional Summary

Highly experienced and detail-oriented Senior Architectural Draftsman with over 15 years of professional experience in Qatar's design and construction industry. Proficient in AutoCAD and Revit, delivering precise IFC, construction, and as-built drawings across multiple sectors including buildings, interiors, infrastructure, and industrial projects. Strong coordination skills with multidisciplinary teams, ensuring design accuracy, project compliance, and timely documentation. Recognized for technical precision, creativity, and consistent contribution to complex architectural developments.

Key Skills

- AutoCAD | Revit
- IFC & As-Built Drawings | Shop Drawings | Architectural Detailing
- Civil, MEP, and Infrastructure Drafting
- Interior Fit-out and Finishing Detailing
- Material Coordination | Technical Documentation
- Tender Documentation & Analysis | Quality Control
- Team Collaboration | Design Coordination | Presentation Drawings

Professional Experience

Senior Architectural Draftsman – Arabian Gulf for Trading & Contracting (AGT), Doha (January 2024 – Present)

- Involved in diverse building, infrastructure, and general contracting projects under AGT's portfolio.
- Produced architectural, shop, IFC, and as-built drawings, coordinating with structural, civil, and MEP teams.
- Supported site planning, design analysis, and feasibility studies for new projects.
- Prepared detailed design reports, tender documents, and technical specifications to meet client standards.
- Created presentation drawings, 3D visualizations, and walkthroughs for client approvals.
- Ensured design consistency, quality control, and multidisciplinary coordination across deliverables.

Architectural Draftsman – UCC Holding / Urbacon, Doha (April 2022 – September 2023)

- Contributed to architectural and construction projects in buildings, infrastructure, heavy construction, and marine works under UCC's broad project portfolio.
- Prepared IFC, shop, and as-built drawings adhering to UCC's technical and documentation standards.
- Supported concession, infrastructure, and utility projects with civil, structural, and architectural drafting.
- Collaborated with design and engineering teams to produce detailed design reports and tender documentation.
- Developed presentation drawings, walkthroughs, and 3D visualizations for project approvals.
- Ensured compliance with quality and project control standards across all drafted deliverables.

Architectural Draftsman – Al Tawfeeq & Partners Contracting (TPC), Doha (May 2020 – February 2022)

- Contributed to construction and infrastructure projects, including high-rise, commercial, residential, and healthcare facilities.
- Prepared architectural, shop, and as-built drawings consistent with TPC's design and execution standards.
- Coordinated with civil, MEP, and structural engineers to integrate underground utilities, drainage, and electrical systems.
- Supported preparation of tender documents, technical reports, and client presentation materials.
- Ensured compliance with project specifications and maintained high-quality control in all deliverables.
- Participated in site selection, evaluation, and feasibility studies, preparing conceptual and preliminary design presentations.

Architectural Draftsman – Qatar Design Consortium (QDC), Doha (August 2008 – March 2019)

- Contributed to multidisciplinary projects including building, landscape, interior, sports & stadia, infrastructure, and industrial architecture.
- Supported Architects on Record with design documentation, coordination, and municipal submission drawings.
- Participated in site selection, evaluation, and feasibility studies, preparing conceptual and preliminary design presentations.
- Produced detailed design drawings, tender documentation, and IFC packages for large-scale developments.
- Developed presentation drawings, 3D walkthroughs, animations, and architectural scale models for clients.
- Assisted in Building Information Modeling (BIM) for accurate design coordination.
- Contributed to regional and master planning, urban design, heritage conservation, and redevelopment projects.

Education

- Diploma in Interior Design – Brainnet School of Interior Design Architecture, 2001
- Diploma in Drafting – Ramavarma Institute of Civil Engineering, 1998
- Diploma in Civil Engineering – Ramavarma Institute of Civil Engineering, 1997
- AutoCAD Certification – CAD Park, 1997
