Doha , Qatar

## **CAREER OBJECTIVE**

---

Seeking a position as an Architect in Qatar where I can apply my skills in AutoCAD, Revit, and SketchUp to deliver accurate 2D and 3D designs and support quality project outcomes.

## **CAREER PROFILE**

---

I am a passionate and results-driven Architect with practical experience in 2D interior planning and 3D architectural modeling using AutoCAD, Revit, and SketchUp. I specialize in developing detailed drawings, layouts, elevations, and interior space plans that align with functional and aesthetic requirements. With a solid understanding of architectural principles, design standards, and interior spatial organization, I deliver creative and technically accurate solutions. Skilled in both standalone and collaborative environments, I aim to contribute effectively to high-quality architectural and interior design projects within Qatar's growing construction sector.

## **WORK EXPERIENCE**

---

### **Previous Experience**

**Company Name: Atelier D35**

**(Nov-2023 to Aug 2025)**

- ✓ Designing and developing 2D architectural drawings and interior layouts using AutoCAD and Revit.
- ✓ Creating 3D models and visualizations in SketchUp for residential and commercial spaces.
- ✓ Preparing detailed 2D interior designs including furniture placement, floor finishes, and space planning.
- ✓ Coordinating with senior architects and project teams to refine design concepts and client requirements.
- ✓ Preparing working drawings, elevations, and technical plans for site execution.
- ✓ Involved in site coordination by supporting layout understanding and assisting in drawing-based supervision.

**Company Name: Al-Ahmad Architect**  
**(Aug-2022 to Oct-2023)**

- ✓ Produced 2D floor plans, sections, and elevations for residential and commercial buildings.
- ✓ Assisted in the development of 3D concepts and client presentations using Sketchup.
- ✓ Supported interior planning tasks including furniture layouts and design adjustments.
- ✓ Collaborated with team members to ensure accurate technical documentation and CAD standards.
- ✓ Assisted in site coordination by reviewing layout drawings and preparing daily activity updates.
- ✓ Ensured on-site work aligned with design specifications through regular drawing checks.
