## AutoCAD Draftsman cum Quantity Surveyor

Over 04 years of experience.

📍 Doha, Qatar    ✉ [asrinazar2002@gmail.com](mailto:asrinazar2002@gmail.com)    ☎ (974) 74031039

### SUMMARY

---

Seeking a challenging position to put into productive use, the knowledge and skills I have gained so far, in order to add value to the project and the organization. I work for Engineering Draughtsman (Interior/Civil) and in the process to further enhance my career.

- Strong technical expertise aimed at supporting the functions of designing.
- Drafting and detailing of Interior and Civil works.
- Good command in the Quantity Surveying activities of electromechanical and interior work.

### EXPERIENCE

---

#### **AutoCAD Draftsman cum Quantity Surveyor** **Al Faisal International Business and Security Services.** **Doha, Qatar.**

**10/2023 – Current**

Coordinated project scope of work with engineering & operations manager to assign Job duties to drafting team with the following focus:

- Created design using computer programs such as AutoCAD and Solidworks to complete shop drawings.
- Developed precise drawing from scratch based on written and verbal specifications supplied by client / engineering.
- Implemented revisions as required by engineering, to meet management / client deadlines.
- Prioritize jobs based on sequence and material availability.
- Received and reviewed details from design professionals to determine precise measurements for drawing preparation.
- Generated details 3D models and advanced assemblies, weldments and drawings ahead of schedule and according to department and company guidelines.
- Formulated bills of materials outlining components required for manufacture or purchase with Clear reference to visual image on drawing.
- Built base drawing library for entire engineering drafting department to use or customize in compliance with Specific project requirements.
- Assists in preparing correspondence to clients and contractors, cost estimates, bid documents, and purchase requisitions for project completion.
- Adhered closely to national requirements for safety and risk management purposes.
- Spearheaded development of modernized drafting standards, resulting in reduced drawing completion time.
- Helped Estimator review contract drawing / specs & pick up material needed (material take-off).

#### **AutoCAD Draftsman** **Atham Bawa & sons (Pvt) Ltd.** **Colombo, Srilanka.**

**05/2022 – 06/2023**

- Responsible for all technical drawings, 3D modelling and documentations.
- Prepare CAD Drawings.
- Generate drawings, method statements, documents as required.
- Coordinate & communicate with clients, consultants, contractors, and project team members.
- To prepare bill of material from modelling Requirements.
- Proficient in Microsoft Office, AutoCAD, Autodesk, Revit, CAD reader and must be able to do 3D Modelling.
- Full room interior elevations to show finishes, details, features, Joinery intent, location of fixtures and fittings.
- Design intent for Power/data and Home Automation.
- Design intent drawings for Custom joinery items (plan/elevation/section/details).
- Sometimes it will be necessary to update Specification Schedules (Excel format) when required.
- Initially checking the drawings produced by external parties (i.e. MEP consultant and Home Automation supplier) and overlaying them/coordinating them with the Interior Design intent and reporting any discrepancies or issues. Prepare the drawings for the Interior Designer's review.
- Initiate, verify and report the project requirements and specifications with the sales and customers for effective project quantity estimation, quotation and project planning to successful completion.

#### **AutoCAD Draftsman cum Interior Designer** **AARCO (Pvt) Ltd (Consultancy)** **Colombo, Srilanka.**

**08/2021 – 04/2022**

- Responsible for all technical drawings, 3D modelling and documentations.
- Prepare CAD Drawings.
- Generate drawings, method statements, documents as required.
- Coordinate & communicate with clients, consultants, contractors, and project team members.
- To prepare bill of material from modelling Requirements.
- Proficient in Microsoft Office, AutoCAD, Autodesk, Revit, CAD reader and must be able to do 3D Modelling.
- Full room interior elevations to show finishes, details, features, Joinery intent, location of fixtures and fitting.

MOHAMED ASRI NAZAR

## EDUCATION

---

### **Higher National Diploma in Engineering Draftsmanship.**

Department of Technical Education & Training, College of Technology.  
Sammanthurai, Sri Lanka.

### **Certificate in Revit Architecture.**

Eastern Technical Development Institute.  
Sri Lanka.

### **Diploma in AutoCAD Drafting & MEP Services.**

The aCADDemy College of Architectural Engineering Technology.  
Kalmunai, Sri Lanka.

### **National Certificate in Information and communication Technology.**

NVQ.  
Srilanka.

## SKILLS

---

- MS Office
- Project Organization
- Team Building
- Supervision
- Team Management
- Design development
- Design background
- Estimation
- 3Ds Max

## PERSONAL INFORMATION

---

- Full Name : **Mohamed Asri Nazar.**
- Phone : **974 74031039**
- Email : **asrinazar2002@gmail.com**
- Date of Birth : **08<sup>th</sup> Sep 2002**
- Nationality : **Sri Lankan.**
- Visa Status : **Transferable QID with NOC.**
