

ABDUL RAZIQ K

Civil Draughtsman |
Architectural Draughtsman

PROFILE INFO

Detail-oriented Civil Draughtsman with 2+ years of experience in preparing accurate architectural and civil drawings in compliance with project specifications and building standards. Highly skilled in AutoCAD (2D drafting) and Revit, with proven ability to interpret engineering drawings and coordinate effectively with architects, engineers, and site teams. Currently based in Doha on a freelance visa and available for immediate employment

EXPERIENCE

Civil / Architectural Draughtsman 2023 - 2025

EX- IN ARCHITECTURE

- Prepared detailed architectural drawings, layouts, and plans using AutoCAD and Revit
- Developed construction, shop, and as-built drawings
- Reviewed drawings to ensure accuracy and compliance with building regulations
- Coordinated with architects and engineers to incorporate design changes
- Conducted site visits to assess space availability, design requirements, and project constraints
- Produced architectural plans, elevations, sections, and detailed drawings
- Assisted in space planning and layout coordination
- Supported project documentation and drawing revisions
- Ensured drawings aligned with design intent and project specifications

TECHNICAL SKILLS

- AutoCAD (2D Drafting & Detailing)
- Revit Architecture / Revit MEP
- SketchUp
- Preparation of construction, shop & as-built drawings
- Architectural plans, elevations, sections & details
- Mechanical layouts (HVAC, piping, equipment layouts)
- Interpretation of architectural, civil & mechanical drawings
- Drawing coordination for building & infrastructure projects

DRAFTING & DESIGN SKILLS

- Architectural detailing (doors, windows, finishes, fixtures)
- Preparation of layout and working drawings
- Mechanical routing and clearance coordination
- Drawing revision control
- Interpretation of architectural, civil, and MEP drawings
- Basic model coordination and clash awareness
