Professional Summary

A highly committed and compassionate Nurse Assistant with comprehensive experience in patient care, clinical support, hospital procedures, and emergency response. Demonstrates strong ability to work in high-pressure environments while maintaining professionalism, accuracy, and empathy. Skilled in patient monitoring, documentation, infection control, and providing essential support to nursing and medical teams. Experienced in both attachment and active hospital roles, including large health facilities such as Eldoret Hospital and Bungoma County Referral Hospital.

Core Competencies

- Patient care, hygiene assistance, and mobility support
- Monitoring and evaluation of vital signs
- Emergency and casualty department support
- Basic life support and first aid response
- Wound care assistance and treatment preparation
- Accurate medical documentation and filing
- Infection prevention & control (IPC)
- Communication, teamwork & interpersonal skills
- Ability to work under minimal supervision
- ICT and computer literacy (Microsoft Office, data entry)
- Safe driving, patient transport assistance & logistics

Work Experience

Nurse Assistant – Bungoma County Referral Hospital

Duration: [6months]

- Assisted registered nurses in administering daily patient care including bathing, feeding, repositioning, and monitoring general well-being.
- Conducted routine vital signs assessment including temperature, pulse, respiration, and blood pressure, ensuring accurate documentation.
- Supported casualty and emergency units by preparing patients, arranging equipment, and offering logistical support during emergencies.
- Helped maintain a clean and safe hospital environment following infection prevention and control standards.
- Communicated effectively with patients, families, and medical staff to enhance care and promote comfort.
- Provided support in transporting patients within departments and responding to urgent patient needs.

Attachment / Internship Experience

Eldoret Hospital – Eldoret

Duration: [3months]

- Gained practical exposure working across key departments including outpatient, wards, maternity, and records.
- Assisted in patient admission, orientation, and documentation processes.
- Supported senior nurses in routine tasks such as dressing wounds, monitoring vitals, and arranging treatment tools.
- Ensured patient comfort by providing bedside care and responding promptly to requests.
- Enhanced professional skills through hands-on learning, observation, and structured clinical duties.

Education Background

- Certificate in Nurse Assisting / Nursing Support
- KCSE – Kenya Certificate of Secondary Education

Certifications

- Valid Driving License
- Computer Certificate – Microsoft Office, Basic ICT Skills
- First Aid & Basic Life Support
